And by the end, you will have mastered 100+ Swedish Slang Words & phrases!

This book is the third in a three-volume set that celebrates the career and achievements of Cliff Goddard, a pioneer of the Natural Semantic Metalanguage approach in linguistics. This third volume explores the potential of Minimal English, a recent offshoot of the Natural Semantic Metalanguage, with special reference to its use in Language Teaching and Intercultural Communication. Often considered the most fully developed, comprehensive and practical approach to cross-linguistic and cross-cultural semantics, Natural Semantic Metalanguage is based on evidence that there is a small core of basic, universal meanings (semantic primes) that can be expressed in all languages. It has been used for linguistic and cultural analysis in such diverse fields as semantics, cross-cultural communication, language teaching, humour studies and applied linguistics, and has reached far beyond the boundaries of linguistics into ethnopsychology, anthropology, history, political science, the medical humanities and ethics.

Colloquial Swedish provides a step-by-step course in Swedish as it is written and spoken today. Combining a user-friendly approach with a

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

How do we interpret language and expose its meanings? How does pragmatics describe the English language? Where can we go to acquire a deeper understanding of pragmatics? Pragmatics and the English Language is a bold new textbook that presents an innovative and exciting way of looking at the subject. This new perspective, called integrative pragmatics, steers a course between what have historically been considered irreconcilable perspectives. With an emphasis on empirical data, the book is filled with examples from cartoons, films and historical sources, as well as face-to-face and digitally-mediated interactions, all of which are used to help the reader develop a better understanding of the theory. Pragmatics and the English Language: - Focuses on both the pragmatic aspects of English and how pragmatics is shaped by English - Synthesizes traditional ideas with state-of-the-art pragmatics research - Goes far beyond the coverage found in other pragmatics textbooks Shedding light on the English language in highly original ways, Pragmatics and the English Language is essential reading for advanced students of the English language and linguistics, along with anybody else who wishes to develop a more in-depth knowledge of pragmatics.
