'[This book] certainly isn't one of the dry educational tomes that often bedeck the shelves of the staffroom; it is an informative, accessible text which evolves into an enjoyable read. There aren't too many practitioner manuals that can boast that particular combination. A useful guide for the ICT leader seeking a practical/effective annual structure for their ICT leadership role' - Teach Primary Magazine This practical manual is the second part of a 2-volume set that together makes up a detailed 2-year training programme for primary ICT and E-learning co-ordinators. The second book takes coordinators through the second year of the programme but may also be used as a starting point by more experienced staff. The structured training programme, timed over three terms, includes: o a complete review of E-Safety procedures in the light of the Every Child Matters agenda o Developing a funding model in order to plan for ICT developments, together with a broader ICT action planning review to embed a revised E learning vision through a series of long-term sustainable actions o Reviewing the curriculum in order to examine how the E Learning community will adapt its core practices to facilitate new technology o the evolving role of school websites as they assume interactivity and examine the place of E Learning within the extended schools agenda o Reviewing the use of ICT as a tool for management systems and discussing how ICT can be used to support different groups of children o examining self-evaluation strategies linked to the school's SEF, the Ofsted Section 5 Framework and Every Child Matters. The books have a companion website, which will offer downloadable versions of the photocopiable sheets from the book, as well as links to other sources of help and advice.

More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you:

- Avoid the 9 deadly sins that destroy startups' chances for success
- Use the Customer Development method to bring your business idea to life
- Incorporate the Business Model Canvas as the organizing principle for startup hypotheses
- Identify your customers and determine how to "get, keep and grow" customers profitably
- Compute how you'll drive your startup to repeatable, scalable profits.

The Startup Owner's Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.
