procedures. The Workbook also includes sample Equipment & Engine Training Council (EETC) technician certification tests for the four-stroke and two-stroke areas of certification. These tests help the students prepare for EETC certification.

Prior to the development of a simple test called the Apgar score, many newborn babies missed receiving the urgent care they needed at birth. Dr. Virginia Apgar came up with the Apgar score to help these newborns by rating them in a number of different health areas. The savior of countless young lives, Virginia Apgar is hailed as a legend, a trailblazer, and an inventor. Readers delve into the riveting story of a medical legend who inspired women doctors to succeed at a time when society did not value the contributions of women in the work force.

A language ministry can be one of the most important services your church offers to your community. It combines outreach, diaconal care, and educational ministries. It includes both literacy and ESL (English as a Second Language) and helps people improve their reading, writing, and speaking skills. It's easy to get started! All you need is a place to meet, volunteer tutors, and resources like Open Door Books. Members of the church and/or community serve as literacy tutors, usually working one-on-one or in small groups with people who are unable to read well. Open Door Books are designed especially for adults who are just learning to read and for those who are learning English as a second language. Written at a third- to fifth-grade reading level, they're essential for language ministries or literacy programs. Interesting life stories, both contemporary and

Jurisdiction and Arbitration Agreements in Contracts for the Carriage of Goods by Sea focuses on party autonomy and its limitations in relation to jurisdiction and arbitration clauses included in contracts for the carriage of goods by sea in case of any cargo dispute. The author takes the perspective of the shipping companies and the shipowners, as these are the driving forces of the shipping industry due to their strategic importance. The book provides an analysis of the existing law on the recognition and validity of jurisdiction and arbitration clauses in the contracts for the carriage of goods by sea. The author also seeks to provide conclusions and to learn lessons for the future of the non-recognition and the non-enforcement of the clauses in the existing fragmented legal framework at an international, European Union, and national level (England & Wales and Spain). The interface between the different

legal regimes reveals the lack of international harmonisation and the existence of ‘ forum shopping ’ when a cargo interest sues the shipowner or the party to whom the shipowner charters the vessel. This concise book provides a useful overview of existing research, for students, scholars and shipping lawyers
