easier, faster, or more cost-effective. And as digital, web-based video assumes a more important role in professional development programs, corporate trainers and other development staff are increasingly being called upon to create training and instructional video themselves: in house, on time, and

radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an

Over the last decade, digital photography has entered the mainstream with inexpensive, miniaturized cameras for consumer use. Digital projection is poised to make a similar breakthrough. In particular, low-cost homemade 3D scanners

Read Book Aiptek Is Dv

are now within reach.

This book gives beginners the necessary mathematics, software, and practical details to leverage projector-camera systems in their own 3D scanning projects. Featuring an example-driven approach, the text illustrates each new concept using a practical scanner implemented
