When an unnamed narrator opens his door to a lightning-rod salesman, the two become involved in a philosophical discussion about faith and the will of God. The salesman claims that the copper rod will protect its owner from the very lightning that the narrator believes to be an act of God. As they argue, and the narrator laughs off the explanations, the salesman becomes increasingly and violently angry. The allegorical nature of Herman Melville's tale explores the ideas of good and evil, and faith in God before faith in fear. This story was included as part of Melville's collection The Piazza Tales. HarperPerennial Classics brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. A modern classic from the Booker-shortlisted author of This Mournable Body The groundbreaking first novel in Tsitsi Dangarembga's award-winning trilogy, Nervous Conditions, won the Commonwealth Writers Prize and has been "hailed as one of the 20th century's most significant works of African literature" (The New York Times). Two decades before Zimbabwe would win independence and ended white minority rule, thirteen-year-old Tambudzai Sigauke embarks on her education. On her shoulders rest the economic hopes of her parents, siblings, and extended family, and within her burns the desire for independence. She yearns to be free of the constraints of her rural village and thinks she's found her way out when her wealthy uncle offers to sponsor her schooling. But she soon learns that the education she receives at his mission school comes with a price.

Mechanics of Machines is designed for undergraduate courses in kinematics and dynamics of machines. It covers the basic concepts of gears, gear trains, the mechanics of rigid bodies, and graphical and analytical kinematic analyses of planar mechanisms. In addition, the text describes a procedure for designing disc cam mechanisms, discusses graphical and analytical force analyses and balancing of planar mechanisms, and illustrates common methods for the synthesis of mechanisms. Each chapter concludes with a selection of problems of varying length and difficulty. SI Units and US Customary Units are employed. An appendix presents twenty-six design projects based on practical, real-world engineering situations. These may be ideally solved using Working Model software.

"Lars Eighner is the Thoreau of the Dumpsters. Comparisons to Defoe's Robinson Crusoe and Hamsun's Hunger leap to mind. A classic of down-and-out literature." —Phillip Lopate When *Travels with Lizbeth* was first published in 1993, it was proclaimed an instant classic. Lars Eighner's account of his descent into homelessness and his adventures on the streets has moved, charmed, and amused generations of readers. As Lars wrote, "When I began writing this account I was living under a shower curtain in a stand of bamboo in a public park. I did not undertake to write about homelessness, but wrote what I knew, as an artist paints a still life, not because he is especially fond of fruit, but because the subject is readily at hand." Containing the widely anthologized essay "On Dumpster Diving," *Travels with Lizbeth* is a beautifully written account of one man's experience of homelessness, a story of physical survival, and the triumph of the artistic spirit in the face of enormous adversity. In his unique voice—dry, disciplined, poignant, comic—Eighner celebrates the companionship of his dog, Lizbeth, and recounts their ongoing struggle to survive on the streets of Austin, Texas, and hitchhiking along the highways to Southern California and back.
