This second edition of Laster's Catalog combines in one volume the listings from the first catalog with the voluminous material that has appeared since 1973, more than doubling the number of citations. It is designed as an aid for the church musician and/or pastor seeking to plan unified worship services. It will also be of use to those church musicians who follow the Liturgical Calendar and plan music appropriate to the appointed lessons, as well as a source for non-church choir directors who would like to locate choral settings based on a particular passage from Scripture. Entries are arranged from Genesis through Revelation. Each main entry citation provides the biblical reference (book, chapter, and verse), as well as a reference to additional passages from Scripture used in the anthem. The composer, arranger, or editor and the title are listed as they appear on the octavo. Information on voicing, solos, and instrumental accompaniment is noted; the name of the publisher, the most recent date of publication and the octavo number appear at the end of each citation, where information on instrumental parts, other versions of the same title, and collections where the work might appear are also listed. Composer and title indexes round off the work.

Vol. 2 of 3 part series of music for the liturgical year. Designed to be used by Christians of all denominations; there is a liturgical index relating songs to the three-year lectionary. Ogden is the Director of Music at Clifton Cathedral, and Regional Director for the South West and Midlands of the Royal School of Church Music. Alan Smith is Secretary to the Composers' Group of the Society of St. Gregory. These song settings may be freely used in worship by Christians of all denominations, but Anglicans and Roman Catholics will welcome the liturgical indexes that relate them to the three-year lectionaries.

Fr. John-Pierre Prevost gives an etymology of and a definition of key words that form the characteristic vocabulary of the psalms, thus providing a tool to understanding and appreciating the Psalter. He suggests also how the psalms fit into one's prayers.

Do you ever wonder why the Bible uses so many references to seeds, plants, and harvest? Or why the first home for humanity was a garden? Does the abundance of foliage all around us perhaps have some wisdom from our maker entwined within its roots? When we compare our lives to the life cycle of plants, we can see similarities that allow us to relate, and in that relationship, there is wisdom and answers. Our world is surrounded by plant life in various stages of their life cycle, from seed form to harvest. There's no mistake that God first created a garden and had us work the ground. God's garden is the world around us! When we sit in the garden, not only are we blessed by God's colorful artistry, but we find wisdom for how to live our lives in abundance, producing fruit for God's harvest. As you read this book, you will discover God's love, his plan, and his purpose for you as you compare yourself to the seed, sprout, leaves, flowers, fruit, and harvest. You will also learn from God's divine design as we study the storms and pests that may hinder growth and stall or completely stop a potential harvest. How can we be prepared to weather the storms in our life? Is there something to be learned from the plants that have survived through drought, storms, and pests? You do not have to be a farmer or gardener to enjoy this book because everything we discuss is all around you! If your thumb isn't even the faintest bit of green you can still gain great wisdom from this book. God does not call the qualified but qualifies the called and that is you! Believe it or not, you are valuable. You are important in God's massive design, and he wants your help with the harvest. This book dives deep into the promises of God and how he planted you specifically with a purpose to enact change in this world, whether big or small, it's all impactful and so are you. 2

The Philokalia (literally "love of the beautiful or good") is, after the Bible, the most influential source of spiritual tradition within the Orthodox Church. First published in Greek in 1782 by St. Nicodemos of the Holy Mountain and St. Macarios of Corinth, the Philokalia includes works by thirty-six influential Orthodox authors from the fourth to fifteenth-centuries such as Maximus the Confessor, Peter of Damascus, Symeon the New Theologian, and Gregory Palamas. Surprisingly, this important collection of theological and spiritual writings has received little scholarly attention. With the growing interest in Orthodox theology, the need for a substantive resource for philokalic studies has become increasingly evident. The purpose of the present volume is to remedy that lack by providing an ecumenical collection of scholarly essays on the Philokalia that will introduce readers to its background, motifs, authors, and relevance for contemporary life and thought.
