First published in 1920, this book is a translation-the only known work of British scholar CLARENCE EDWIN ROLT (1880-1917)-of *On the Divine Names and The Mystical Theology*, by Dionysius the Areopagite, a first-century bishop of Athens. The author is often also referred to as "pseudo-Dionysius" because a variety of anachronisms suggest that the manuscript was actually written much later by an unknown writer. Despite the book's unclear origins, the writings are still greatly valued for their theological insight. Saint Thomas Aquinas often quoted from pseudo-Dionysius, as did many other famous and influential theologians and philosophers. Pseudo-Dionysius deals, here, with the Supra-Personality of God. Personality, by definition, is a

quality limited to an individual. God, on the other hand, is the opposite of an individual. God is in all things, so one cannot speak of a personality for the divine. Rather, pseudo-Dionysius proposes a Supra-Personality, which describes aspects and qualities of the universal being. Religious scholars and Christians wanting a different understanding of the relationship between God and the universe will find this a challenging but ultimately thought-provoking study.

Thoughts in The Meantime Last night I watched the sunrise while I cried, because in that moment surely a piece of me had died I watched as my

childhood lost its sweet taste of
innocence traveling into adulthood
skipping all of the steps in between
Leaving me with a heart that did not
know on whom it should lean And, this
morning I watched the sun set on my
soul burning my insides until I had no
choice but to let go as my adolescence
left my body so that I could become
whole Last night I quietly sat back in
the distance and watched myself turn
from a young lost girl of this world to a
woman and child of God...
