they work through the How To examples and the paired Examples and You Try It problems.

As in previous editions, the focus in BASIC COLLEGE MATHEMATICS remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. Student engagement is crucial to success. Presenting students with worked examples, and then providing them with the opportunity to immediately solve similar problems, helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content, and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Tenth Edition also features a new design, enhancing the Aufmann Interactive Method and making

the pages easier for both students and instructors to follow. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The First Canadian Edition of BASIC COLLEGE MATHEMATICS engages students through real-world, Canadian examples and problems, while maintaining and building on the pedagogical strengths of the Aufmann series. Practice is a key to success in developmental mathematics and each feature within this title focuses on student mastery of concepts. All lessons, exercise sets, problems, and supplements are organized around a carefully constructed hierarchy of objectives; each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. In addition to Canadian and international word problems and examples, this edition makes math skills more relevant to Canadian students through a chapter on the metric system and supports the unique blend of the metric system and Imperial System used in Canada.

The market size is 500,000 units. 25-45% of sales are custom.

The Student Support Edition of Basic College Mathematics, 8/e, brings comprehensive study skills support to students and the latest technology tools to instructors. In addition, the program now includes concept and vocabulary review

material, assignment tracking and time management resources, and practice exercises and online homework to enhance student learning and instruction. With its interactive, objective-based approach, Basic College Mathematics provides comprehensive, mathematically sound coverage of topics essential to the basic college math course. The Eighth Edition features chapter-opening Prep Tests, real-world applications, and a fresh design--all of which engage students and help them succeed in the course. The Aufmann Interactive Method (AIM) is incorporated throughout the text, ensuring that students interact with and master concepts as they are presented. Textbook Specific. Accompanys: 9780521844390 .

Here, the authors continue to offer an enlightened approach grounded in the fundamentals of classroom experience in basic college mathematics. The text reflects the compassion and insight of its experienced author team with features developed to address the specific needs of developmental level students. Throughout the text, the authors communicate to students the very points their instructors are likely to make during lecture, and this helps to reinforce the concepts and provide instruction that leads students to mastery and success.
