“ A galvanizing expos é ” of America ’ s trash problem from plastic in the ocean to “ wasteful packaging, bogus recycling, and flawed landfills and incinerators ” (Booklist, starred review). Eat a take-out meal, buy a pair of shoes, or read a newspaper, and you ’ re soon faced with a bewildering amount of garbage. The United States is the planet ’ s number-one producer of trash. Each American throws out 4.5 pounds daily. But garbage is also a global problem. Today, the Pacific Ocean contains six times more plastic waste than zooplankton. How did we end up with this much rubbish, and where does it all go? Journalist and filmmaker Heather Rogers answers these questions by taking readers on a grisly and fascinating tour through the underworld of garbage. *Gone Tomorrow* excavates the history of rubbish handling from the nineteenth century to the present, pinpointing the roots of today ’ s waste-addicted society. With a “ lively authorial voice,” Rogers draws connections between modern industrial production, consumer culture, and our throwaway lifestyle (New York Press). She also investigates the politics of recycling and the export of trash to poor countries, while offering a potent argument for change. “ A clear-thinking and peppery writer, Rogers presents a galvanizing expos é of how we became the planet ’ s trash monsters. . . . [Gone Tomorrow] details everything that is wrong with today ’ s wasteful packaging, bogus recycling, and flawed landfills and incinerators. . . . Rogers exhibits black-belt precision. ” —Booklist, starred review

Laurie Kirszner and Stephen Mandell, authors with nearly thirty years of experience teaching college writing, know what works in the classroom and have a knack for picking just the right readings. In *Patterns for College Writing*, they provide students with exemplary rhetorical models and instructors with class-tested selections that balance classic and contemporary essays. Along with more examples of student writing than any other reader, *Patterns* has the most comprehensive coverage of active reading, research, and the writing process, with a five-chapter mini-rhetoric; the clearest explanations of the patterns of development; and the most thorough apparatus of any rhetorical reader, all reasons why *Patterns for College Writing* is the best-selling reader in the country. And the new edition includes exciting new readings and expanded coverage of critical reading, working with sources, and research. It is now available as an interactive Bedford e-book and in a variety of other e-book formats that can be downloaded to a computer, tablet, or e-reader. Read the preface.

A ten-year-old orphan comes to live in a lonely house on the Yorkshire moors and discovers an invalid cousin and the mysteries of a locked garden.

*New Directions* is a thematic reading-writing book aimed at the most advanced learners. It prepares students for the rigors of college-level writing by having them read long, challenging, authentic readings, from a variety of genres, and by having them apply critical thinking skills as a precursor to writing. This emphasis on multiple longer readings gives *New Directions* its distinctive character.

This latest volume lists all the major research projects being undertaken in Britain during the latter months of 1992, the whole of 1993 and the early months of 1995.

His is a wry, down-to-earth, often humorous vision - a perceptive, everyman's view of life, couched in straight forward, accessible language. -Coast News

From Douglas Adams, the legendary author of one of the most beloved science fiction novels of all time, *The Hitchhiker ’ s Guide to the Galaxy*, comes a wildly inventive novel—in trade paperback for the first time—of ghosts, time travel, and one detective ’ s mission to save humanity from extinction. *DIRK GENTLY ’ S HOLISTIC DETECTIVE AGENCY* We solve the whole crime We find the whole person Phone today for the whole solution to your problem (Missing cats and messy divorces a specialty) Douglas Adams, the “ master of wacky words and even wackier tales ” (Entertainment Weekly) once again boggles the mind with a completely unbelievable story of ghosts, time travel, eccentric computer geniuses, Samuel Taylor Coleridge, the end of the world, and—of course—missing cats.
