PB Technologies: This is a hidden profile task designed to teach the importance of effective information sharing in teams. Students are asked to recommend one of three finalists for the position of CFO.

**Carter Racing Case Solution—**

The book answers a simple question: when managers and companies face a decision with two outcomes that are safe and risky, what leads them to choose the risky alternative? The answer starts with a detailed review of the theory behind risk and decision making by managers. The book then gathers real-world evidence using two surveys of senior managers and directors to analyze why they take risks, and how companies control risks.

Creativity is being recognized as an important source of competitive advantage because a single creative idea that is both novel and useful may take an organization in a profitable new direction. This work aims to promote the burgeoning interest in group creativity by identifying new questions that will drive future research in this area.

**Carter Racing Case Solution—**

Course based on video segments contained in 1st video and issues raised in the selected features, which help focus attention on critical management issues and which introduce each course module's topic.

From medicine to education, evidence-based approaches aim to evaluate and apply scientific evidence to a problem in order to arrive at the best possible solution. Thus, using scientific knowledge to inform the judgment of managers and the process of decision-making in organizations, Evidence-based Management (EBMgt) is the science-informed practice of management. Written by leading experts in the study and practice of EBMgt, The Oxford Handbook of Evidence-based Management provides an overview of key EBMgt ideas and puts them in context of promoting evidence-based practice. Furthermore, it addresses the roles and contributions of practitioners, educators, and scholars – the primary constituents of EBMgt – while providing perspectives and resources for each. Divided into three sections (research, practice, and education), this handbook examines the realities of everyday management practice and the role EBMgt can play in improving managerial decision making and employee well being and instructs educators in their roles as designers of curricula and resources. As the first major volume to capture the spirit of this emerging movement, The Oxford Handbook of Evidence-based Management shows how practitioners can use high-quality knowledge gleaned from scientific research in order to make better use of available data and ultimately make more mindful decisions.

**Carter Racing Case Solution—**

Take an exclusive behind-the-scenes look at what it takes to create a world-class cyclist. James Witts invites you into the world of marginal gains to discover the innovative training techniques, nutrition strategies and cutting-edge gear that are giving today’s elite cyclists the competitive advantage. Find out why Formula One telemetry is key to more bike speed; how power meters dictate training sessions and race strategy; how mannequins, computational fluid dynamics and wind-tunnels are elevating aerodynamics to the next level; why fats and training on water alone are popular in the peloton; and why the future of cycling will involve transcranial brain stimulation and wearable technology. With contributions from the world’s greatest riders, including Marcel Kittel, Peter Sagan and Bauke Moliema, and the teams that work alongside them: Etixx-Quick Step, Team Sky, Tinkoff, Movistar, BMC Racing, Trek-Segafredo and many more. Also meet the teams’ sports scientists, coaches, nutritionists and chefs, who reveal the pioneering science that separates Contador and Cancellara from the recreational rider. To win the Tour de France takes stamina, speed, strength... and science.

Woodson’s classic work of criticism explores how the education received by blacks has failed to give them an appreciation of themselves as a race and their contributions to history. Woodson puts forward a program that calls for the educated to learn about their past and serve the black community. (Education/Teaching)

An easy to read little book on Bipolar Disorder. Written in plain English for people with Bipolar Disorder, family members, and therapists. Feedback is that it is a very illuminating book and people have said (Bipolars and therapists) "I finally understand Bipolar Disorder."

The fascinating autobiography of Dick Carter who won the Fastnet Race in his first go at boat design. This and his other highly innovative designs established a new look and ingenious technological concepts for racing yachts that seem routine today, such as separated rudders, trim tabs, internal mast halyards, oversize headsails and lifting keels.
