This book will be an important addition to the limited number of books that discuss finance and accounting issues in East Asian countries. While presenting recent empirical studies on finance and accounting in East Asian economies, it also reveals the underlying reasons for remarkable economic growth and emerging performance of the financial markets in the East Asian countries. It introduces newly developed financial products, institutions, governance mechanism, banking policy

Korea, India, Indonesia, Maldives, Myanmar, Nepal, Sri Lanka, Thailand and Timor-Leste. This region is home to 26% of world population; there is a disproportionate amount of blindness (30.6%) and visual impairment (36%). This is a first of its kind book that discusses common conditions of visual impairment and blindness in the South-East Asia region. In addition, the book documents the current eye care industry in the region and the contribution of all eye health INGOs in eye care program planning and service delivery for many decades. Majority of the countries in

the South-East Asia region are categorized in 'middle-income country' group. This book discusses the common challenges in these countries such as, suboptimal public expenditure in health, acute shortage of skilled eye health workforce, and rudimentary health industry. The book covers the following 6 sections: 1. Geographic description and health indices of the region 2. Health system evolved over years, including universal eye health, health financing and health management information system (HMIS) 3. Common eye problems including non-

region specifically and all ophthalmologists and scientists interested in public health all over the world as well as for program planning to reach the 'Health for All' strategy by 2030 (United Nations Sustainable Development Goal, SDG 2030).

FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions, both common law and civil law. For any construction project, the General Conditions of Contract published by FIDIC need to be supplemented by

Particular Conditions that specify the specific requirements of that project subject to the relevant laws. FIDIC Contracts in Asia Pacific provides readers with detailed guidance and resources for the preparation of the Particular Conditions that will comply with the requirements of the applicable laws for a number of the jurisdictions in which FIDIC contracts are used. The laws that apply to the governing law of the contract, construction works and dispute resolution in each jurisdiction are identified. This book offers chapters on the FIDIC

Conditions of Contract for Underground Works, and the perspective of a bilateral aid agency on the use of FIDIC contracts. Each jurisdiction features an outline of its construction industry and information on the impact of Covid-19 on both the execution of construction projects and the operation of construction contracts. This book is essential reading for construction professionals, lawyers and students of construction law using FIDIC contracts.

The symposium held on 28-29

July 2010 at the Asian Development Bank---whose proceedings are documented in this publication---brought together senior members of the judiciary and environmental ministry officials from Asian jurisdictions, academe, civil society, international organizations, and distinguished experts from developed countries and development institutions to share experience that will lead to an improvement in the quality of environmental adjudication on environment and natural resource cases in Asian jurisdictions. At the symposium, Asian judges

For organisations and management the role of business ethics is of key importance, but to what extent business ethics are actually new or fashionable or universally applicable are interesting questions. Asia has been the site of contests between competing economic and ethical views of how economic norms and institutions are organized. This book examines the evolutionary similarities and differences of

Online Library Complete Pec Asia

institutionalizing business ethics in Asia in a historical context and in comparison to better-explored business ethics literature, both empirically and theoretically. This collection uses both historical and contemporary cases in Japan, Korea and China to show that these countries have tried to balance their traditional business ethics norms and values with those that have been introduced from the West. Underpinning the case studies is the fact that these countries have historically pursued ethical mandates in running private corporations, although

corruptive practices were also rampant during different historical periods.

Drawing on the Asian Development Bank's experience installing the rooftop solar photovoltaic system at its headquarters, the Handbook for Rooftop Solar Development in Asia hopes to demystify the process of developing solar photovoltaic projects in urban areas. The handbook provides detailed descriptions and guidance for all stages of development, including initial prefeasibility assessment, design,

financing, procurement, and operations and maintenance. The Asian Development Bank hopes that entities looking to take advantage of the benefits of solar photovoltaic systems would find the development process made transparent and streamlined, and that this handbook would encourage the spread of solar photovoltaic systems in cities throughout developing Asia and the Pacific.

The organization of this study reflects the importance of such strategic factors as determinants of trade and investment. Chapter 2 focuses on the

home environment of Japanese firms, and with comparisons drawn with the US economy, illustrate how, as the economy has restructured and modernized in the post-war period, firm behaviour has evolved too. Chapter 3 is an assessment of the concept of strategic behaviour of governments and firms, what it might look like and how it matters to trade and investment. Chapter 4 focuses on an examination of East Asian trade patterns with Japan and their evolution, while Chapter 5 focuses - through firm level comparisons and surveys - on patterns of FDI, in particular on production

networks in the region.
Regression analysis is used
in Chapter 6 to test for the
significance of 'strategic'
behaviour by governments as
a determinant of FDI.
