This is a must-have reference for anyone who prepares residential building estimates. With one comprehensive resource you can generate accurate, consistent estimates for housing projects of every scope and scale. It's easier to estimate accurately with individual labour, material and plant hire costings. Each costing rate includes the labour required to fix the item into position, all material costs including appropriate allowances for waste, and any plant hire costs involved. Each element is shown independently and then totalled to give you the total dollar value. This allows you to accurately compare the rate given against your own particular situation then accept the rate or make any price adjustments.
