Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides, Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

Married couples...dating couples...parents and children...teachers and students...office workers...management and staff...business to business... There is a simple solution to improving your communication and building better, healthier relationships. It's called Law of Connection. Make it work for you! Are there certain people you cannot seem to communicate with--at home, at work, or in your community? You say one thing, they hear something different. You simply do not understand one another, and you cannot explain why. The only thing you are certain of is that the lack of connection leads to disappointment, frustration, and conflict. Now in *LAW OF CONNECTION*, Michael J. Losier gives you the key to successful communication. Using the principles of

“The Social Network meets Hammer of the Gods” in this story of a 1990s web titan who made a fortune and lost it all—and what happened afterward (The Independent). One day in February 2001, Josh Harris woke to certain knowledge that he was about to lose everything. The man Time magazine called “The Warhol of the Web” was reduced to a helpless spectator as his fortune dwindled from 85 million dollars to nothing, all in the space of a week. Harris had been a maverick genius preternaturally adapted to the new online world. He founded New York’s first dotcom, Pseudo.com, and paved the way for a cadre of twentysomethings to follow, riding a wave of tech euphoria to unimagined wealth and fame for five years—before the great dotcom crash, in which Web 1.0 was wiped from the face of the earth. Long before then, though, Harris’s view of the web had darkened, and he began a series of lurid social experiments aimed at illustrating his worst fear: that the internet would soon alter the very fabric of society—cognitive, social, political, and otherwise. In *Totally Wired*, journalist Andrew Smith seeks to unravel the opaque and mysterious episodes of the early dotcom craze, in which the seeds of our current reality were sown. Drawing on in-depth interviews with Harris and those who worked alongside him in downtown Manhattan’s “Silicon Alley,” the tale moves from a compound in Ethiopia through New York, San Francisco, Las Vegas, London, and Salt Lake City, Utah; from the dawn of the web to the present, taking in the rise of alternative facts, troll society, and the unexpected origins of the net itself, as our world has grown uncannily to resemble the one Harris predicted—and urged us to evade. “Raucous, whimsical, sad and very funny...a fascinating account of what could have been, what briefly was, what almost lasted.” ?TheWall Street Journal “Told with verve and style...A valuable history.” ?Kirkus Reviews “A brilliant exploration of madness and genius in the early days of the web.”?The Guardian “Dark and compelling.”?Daily Mail “This is a book whose time has come.”?Sunday Times

A new play from an award-winning playwright, published as part of the innovative Abbey Theatre playscript series On the day of her father's funeral, Eva - a young woman - is still haunted by the betrayal she witnessed from her childhood haven - the treehouse in the garden. On the same day another woman, Magda, relives the ghosts of another hiding place and a different betrayal - ghosts from which she still seeks forgiveness. Interweaving lives and secrets Treehouses is a magical tale of refuge, treachery and of love lost and found.

A story about how the very messy French philosopher, René Descartes, invented an ingenious way to keep track of his possessions.
