where they learn about the Battle of Boonesborough.

A bloody episode of the Kentucky border By 1782 the American War of Independence was all but coming to its close and with it the birth of a new nation and the loss of an important colony for the British. The frontier settlements of Kentucky lay at the farthest reaches of European expansion, far away from the principal towns and cities of the established states, on the eastern seaboard of the continent. This was the frontier of its day where isolated farms, stockades, forts and villages were constantly in peril of attack by Indian tribes, their white allies and the British. Bryan's Station (sometimes called Bryant's Station) was a fortified settlement of forty cabins founded in 1775 on the Elkhorn Creek. It withstood attack on several occasions but in 1782, ten months after Cornwallis had surrendered at Yorktown, it came under siege by Canadian British forces under Caldwell, the renegade Simon Girty and 300 Shawnee Indians. The event was notable for an outstanding feat of bravery by the women of the settlement-which is of course recounted here in detail. When the besiegers discovered that relief was on its way in the form of the local militia they withdrew. After a pursuit of some 60 miles the British and their allies turned and lay in ambush. The combat that followed, known as the Battle of Blue Licks was disastrous for the Americans who lost 83 killed or captured for negligible loss among their enemy. Despite warnings from the veteran frontiersman Daniel Boone, who was with them, the militia blundered into the ambush losing nearly half their number including Boone's son, Israel, and the expedition's commanders, Todd and Trigg. Boone barely escaped on horseback, abandoning the body of his son who was mortally wounded in the neck. The engagement, the worse defeat suffered by Kentuckians during the war effectively ended the conflict in the east. Leonaur editions are newly typeset and are not

Daniel Boone was an American pioneer, explorer, woodsman, and frontiersman, whose frontier exploits made him one of the first folk heroes of the United States. Boone is most famous for his exploration and settlement of what is now Kentucky, which was then part of Virginia but on the other side of the mountains from the settled areas. As a young adult, Boone supplemented his farm income by hunting and trapping game, and selling their pelts in the fur market. Through this occupational interest, Boone first learned the easy routes to the area. Despite some resistance from American Indian tribes such as the Shawnee, in 1775, Boone blazed his Wilderness Road through the Cumberland Gap in the Appalachian Mountains from North Carolina and Tennessee into Kentucky. There, he founded the village of Boonesborough, Kentucky, one of the first American settlements west of the Appalachians. Before the end of the 18th century, more than 200,000 Americans migrated to Kentucky/Virginia by following the route marked by Boone. Boone was a militia officer during the Revolutionary War (1775 – 83), which, in Kentucky, was fought primarily between the American settlers and the British-aided Indians. Boone was captured by Shawnee warriors in 1778. He escaped and alerted Boonesborough that the Shawnees were planning an attack. Although heavily outnumbered, Americans repelled the Shawnee warriors in the Siege of Boonesborough. Boone was elected to the first of his three terms in the Virginia General Assembly, during the Revolutionary War, and fought in
