For years, the government has put out hits on people that they found "expendable," or who they felt were "talking too much," covering up their assassinations with drug overdoses and mysterious suicides. In *Dead Wrong*, David Wayne argues that Marilyn Monroe was murdered, that the person who shot Martin Luther King Jr. was ordered to do so by the government, and examines many other terrifying cover-ups throughout our country's history. The extensive research shows how our government has taken matters into its own hands, plotting murder whenever it saw fit. From New York Times bestselling authors Richard Belzer and David Wayne comes a hard look at the wrongs done to us all by big business in America. Here is an explosive account of wrongful acts perpetrated, and the ensuing cover-ups inflicted upon us, by American corporations. crisis, to the scams perpetrated by Big Oil and Big Pharma. The one common victim of all that corruption is the American public, and Corporate Conspiracies wants to do something about it. Corporate Conspiracies takes dead aim at those who take advantage of us little guys. Probably most disturbing is the book's examination of politics and capitalism teaming up against us—how politicians and lobbyists all have their hands in each other's pockets while stabbing us in the back, and how the well-established energy lobby—which is petroleum, natural gas, and coal—has played a dominant role in the shaping of US foreign policy for decades. Did you know that companies at times know that their products will kill people, but they do nothing, because it is actually cheaper to compensate the victims than it is to correct the problem? Belzer and David Wayne are back to set the record straight after Dead Wrong; this time they're going to uncover the truth about the many witness deaths tied to the JFK assassination. For decades, government pundits have dismissed these "coincidental" deaths, even regarding them as "myths" as "urban legends." Like most people, Richard and David were initially unsure about what to make of these "coincidences". After all, events don't "consult the odds" prior to happening; they simply happen. Then someone comes along later and figures out what the odds of it happening were. Some of the deaths seemed purely coincidental; heart attacks, hunting accidents. Others clearly seemed noteworthy; witnesses who did seem to know something and did seem to die mysteriously. Hit List is a fair examination of the evidence of each case, leading to (necessarily) different conclusions. The

findings were absolutely staggering; as some cases were clearly linked to a "clean-up operation" after the murder of President Kennedy, while others were the result of "other forces". The impeccable research and writing of Richard Belzer and David Wayne show that if the government is trying to hide anything, they're the duo who will uncover it. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. Unless you've been living under a rock for the past fifty years, you're aware of the many hypotheses that the assassination of President John F. Kennedy was not done by one man. Whether you've read one or a dozen of the books on this topic, there's no way to fully grasp the depth of this conspiracy. For the first time ever, New York Times bestselling authors Jesse Ventura and Dick Russell have teamed up with some of the most respected and influential assassination researchers to put together the ultimate compendium that covers every angle—from the plot to the murder—of JFK. *They Killed Our President* will not only discuss the most famous of theories, but will also bring to light new and recently discovered information, which together shows that the United States government not only was behind

The research and information in this book are unprecedented, and there's nobody better to bring this to everyone's attention than the former governor of Minnesota and US Navy SEAL, Jesse Ventura.

startling disclosures about corruption in the LAPD. It told the story of Russell Poole, a highly decorated LAPD detective, who uncovered a cabal of "gangsta cops" tied to Marion "Suge" Knight's notorious rap label, Death Row Records, and allegedly to the murders of Tupac Shakur and the Notorious B.I.G. Over twenty years later, no one has been held accountable for their killings. Now Dead Wrong tells the story of the last sixteen years in the B.I.G. investigations, and uncovers the conspiracy of silence that met the estate's wrongful death suit against the City. Back in 2001, an eyewitness identified the man who shot Biggie as Amir Muhammad, a man who was former LAPD officer, Death Row associate, and convicted bank robber David Mack's college roommate and the only man to visit him in prison. from Mack and Muhammad, and the wrongful death lawsuit sought to make the city explain why—but instead, investigators encountered a disturbing pattern of selective investigation, hidden evidence, and possible witness tampering. Exclusive interviews with the FBI's lead investigator of the Biggie murder demonstrate a conspiracy that went to the top, and which implicates some of the most powerful men in law enforcement nationally. A gripping investigation into murder, police corruption, and the corridors of power in Los Angeles, *Dead Wrong* is full of shocking revelations about a mystery that continues to hold us twenty years on.

black box. Richard Belzer, George Noory, and David Wayne want to know why. Scrutinizing the theories the media and politicians claim are the "most likely" reasons the plane crashed, Belzer, Noory, and Wayne argue that if a year after a huge Boeing 777 has gone missing, and there's still no sign of it whatsoever, it's time to think outside the box. The public needs to stop being misled. If a plane and its passengers went "missing" once, what's to stop it from happening again? Some of the theories the authors consider seem implausible on the surface, but the thorough research they've done and the continual failure of politicians, aviation authorities, and military members around the world to give any indication they're wrong makes their arguments as good—if not better—than the more widely shared ones. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think.

But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

story of the man who oversaw the CIA's secret drug and mind-control experiments of the 1950s and '60s. The visionary chemist Sidney Gottlieb was the CIA's master magician and gentlehearted torturer—the agency's "poisoner in chief." As head of the MK-ULTRA mind control project, he directed brutal experiments at secret prisons on three continents. He made pills, powders, and potions that could kill or maim without a trace—including some intended for Fidel Castro and other foreign leaders. He paid prostitutes to lure clients to CIA-run bordellos, where they were secretly dosed with mind-altering drugs. His experiments spread LSD across the United States, making him a hidden godfather of the 1960s counterculture. For years he was the chief supplier of spy tools used by CIA officers around the world. U.S. clandestine operations, draws on new documentary research and original interviews to bring to life one of the most powerful unknown Americans of the twentieth century. Gottlieb's reckless experiments on "expendable" human subjects destroyed many lives, yet he considered himself deeply spiritual. He lived in a remote cabin without running water, meditated, and rose before dawn to milk his goats. During his twenty-two years at the CIA, Gottlieb worked in the deepest secrecy. Only since his death has it become possible to piece together his astonishing career at the intersection of extreme science and covert action. *Poisoner in Chief* reveals him as a clandestine conjurer on an epic scale.
