The two-volume set LNCS 12376 and 12377 constitutes the refereed proceedings of the 17th International Conference on Computers Helping People with Special Needs, ICCHP 2020, held in Lecco, Italy, in September 2020. The conference was held virtually due to the COVID-19 pandemic. The 104 papers presented were carefully reviewed and selected from 206 submissions. Included also are 13 introductions. The papers are organized in the following topical sections: Part I: user centred design and user participation in inclusive R&D; artificial intelligence, accessible and assistive technologies; XR accessibility – learning from the past, addressing real user needs and the technical architecture for inclusive immersive environments; serious and fun games; large-scale web accessibility observatories; accessible and inclusive digital publishing; AT and accessibility for blind and low vision users; Art Karshmer lectures in access to mathematics, science and engineering; tactile graphics and models for blind people and recognition of shapes by touch; and environmental sensing technologies for visual impairment Part II: accessibility of non-verbal communication: making spatial information accessible to people with disabilities; cognitive disabilities and accessibility – pushing the boundaries of inclusion using digital technologies and accessible eLearning environments; ICT to support inclusive education – universal learning design (ULD); hearing systems and accessories for people with hearing loss; mobile health and mobile rehabilitation for people with disabilities; current state, challenges and opportunities; innovation and implementation in the area of independent mobility through digital technologies; how to improve interaction with a text input system; human movement analysis for the design and evaluation of interactive systems and assistive devices; and service and care provision in assistive environments 12 chapters are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Joint project of the Federal Judicial Center and the National Institute for Trial Advocacy.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

A contemporary and vibrant Deaf culture is found within Deaf communities, including Deaf Persons of Color and those who are DeafDisabled and DeafBlind. Taking a more people-centered view, the second edition of Deaf Culture: Exploring Deaf Communities in the United States critically examines how Deaf culture fits into education, psychology, cultural studies, technology, and the arts. With the acknowledgment of signed languages all over the world as bona fide languages, the perception of Deaf people has evolved into the recognition and acceptance of a vibrant Deaf culture centered around the use of signed languages and the communities of Deaf peoples. Written by Deaf and hearing authors with extensive teaching experience and immersion in Deaf cultures and signed languages, Deaf Culture fills a niche as an introductory textbook that is more inclusive, accessible, and straightforward for those beginning their studies of the Deaf World. New to the Second Edition: *A new co-author, Tophier González Ávila, MA *Two new chapters! Chapter 7 "Deaf Communities Within the Deaf Community" highlights the complex variations within this community Chapter 10 "Deaf People and the Legal System: Education, Employment, and Criminal Justice" underscores linguistic and access rights *The remaining chapters have been significantly updated to reflect current trends and new information, such as: Advances in technology created by Deaf people that influence and enhance their lives within various national and international societies Greater emphasis on different perspectives within Deaf culture Information about legal issues and recent political action by Deaf people New information on how Deaf people are making breakthroughs in the entertainment industry Addition of new vignettes, examples, pictures, and perspectives to enhance content interest for readers and facilitate instructor teaching Introduction of theories explained in a practical and reader-friendly manner to ensure understanding An updated introduction to potential opportunities for professional and informal involvement in ASL/Deaf culture with children, youth, and adults Key Features: *Strong focus on including different communities within Deaf cultures *Thought-provoking questions, illustrative vignettes, and examples *Theories introduced and explained in a practical and reader-friendly manner

In recent years, methods for coupling active implants to the middle ear, round window or combinations of passive middle ear prostheses have progressed considerably. Patient selection criteria have expanded from purely sensorineural hearing losses to conductive and mixed hearing losses in difficult-to-treat ears. This book takes into consideration recently developed methods as well as devices in current use. It begins with a fascinating and authentic history of active middle ear implants, written by one of the main pioneers in the field. In the following chapters, leading scientists and clinicians discuss the relevant topics in otology and audiology. Treatments for sensorineural hearing loss, conductive and mixed hearing losses, and results on alternative coupling sites such as the stapes footplate and the oval window are also covered, as well as articles on candidacy and cost-effectiveness. This publication is a must for ENT professionals and surgeons seeking out the latest knowledge on current research and clinical applications of active middle ear implants for all types of hearing loss.

Turbulent times. Economic disruptions. Wars and civil strife. Hidden and secret cabals. Global elites. Mysterious symbols. Missing money. Surveillance and microchips. Where is the world heading? Just who has control, and what are their goals? While we are assured by our leaders that global treaties and international organizations such as the International Monetary Fund and United Nations are wholly benign and beneficial in nature, are they actually the foundation for an authoritarian world government? Are powerful cabals and front organizations orchestrating political and financial events in a nefarious attempt to destroy individual nations and achieve world domination? Uncovering more than 200 events, organizations, people, symbols, pop-cultural references, and other examples underlying suspicions of the looming New World Order, The New World Order Book reveals and uncovers the truth behind the disconcerting reasons for the rapidly expanding militarization of the police; the increase in doctors prescribing mood-changing drugs to the nation's children; the manipulative actions of the Illuminati and the Freemasons; population control; the surveillance of social media, emails, and phone calls; Project Blue Beam; an alleged, top secret program to create a faked alien invasion; the rise of a so-called Fourth Reich; the further expansion of the Patriot Act; suspicious deaths; "end times" scenarios; banking elites; and the microchipping and tracking of the human population; to name just a few. Tracing the power and destructive effects of the global elite and their plots, The New World Order Book exposes their unpleasant reach into the daily operations of today's world. It also includes a helpful bibliography and an extensive index, adding to its usefulness.

*Many causes of hearing loss can be prevented or mitigated. In addition, people who develop hearing loss can benefit from appropriate and timely interventions. The profile and causes of hearing loss vary greatly across and within regions, as does the availability of infrastructure and resources to address it. Hence, it is essential that each country develop its own strategic plan to deal with hearing loss and its causes. A national ear and hearing care strategy should seek to reduce the prevalence, incidence and impact of hearing loss in the community, through public health approaches that are integrated with the country's health system and service delivery. The development of a holistic and integrated strategic plan is the first step towards 'provision of effective and sustainable ear and hearing care services.' This manual provides guidance on developing and implementing such a strategy. The manual can be used in combination with the Ear and Hearing Care Situation Analysis Tool, which provides a detailed framework for an initial situation analysis. The planning process for a national ear and hearing care strategy comprises the following phases."--Page 16]

Inside you'll find: 15,000 headwords and more than 24,500 translations Clearer typography for improved readability Updated coverage of contemporary Spanish language and life

"Your mother and father are running away," said a voice piercing the warm air. I froze and turned toward home. To a Hutterite, nothing is more shameful than that word, running away. Weglaufen..." In 1969, Ann-Marie's parents did the unthinkable. They left a Hutterite colony in Canada with seven children, and little else, to start a new life. Overnight, the family was thrust into a society they did not understand and which knew little of their unique culture. The transition was overwhelming. Desperate to be accepted, ten-year-old Ann-Marie was forced to deny her heritage in order to fit in with her peers. I Am Hutterite chronicles her quest to reinvent herself as she comes to terms with the painful circumstances that led her family to leave community life. Rich with memorable characters and vivid descriptions, this ground-breaking narrative shines a light on intolerance, illuminating the simple truth that beneath every human exterior beats a heart longing for understanding and acceptance. "A superb memoir . . . this has the makings of a prairie classic." --AWARD JURY, SASK BOOK AWARDS "Honest, strong, clear, direct, it opens the door on what has been for so many of us a completely closed world." --WINNIPEG FREE PRESS
