Dwarf conifers can be used to control erosion and eliminate the need to mow on a steep slope. Combined with a few weed-suppressing ground covers, a planting of several dwarf conifers can serve as an attractive and low-maintenance design solution. A grouping of dwarf Alberta spruces creates the effect of a miniature forest.

With blue, green, and gold foliage and shapes ranging from spiky to weeping, conifers have the potential to be garden design stars. But they are commonly misused in gardens and landscapes, leading to looming spruces squashed against a house or rows of kettledrum-shaped yews along a sidewalk. When used correctly and creatively, conifers can be star players in creating beautiful, long-lasting plant combinations or serene backyard havens. Designing with Conifers shows readers exactly how to choose the best conifers for specific needs. Chapters cover shape, color, and conifers for specific sites and conditions, including front gardens, hedges and screens, topiary, dwarf conifers, shade gardens, Asian-style gardens, bonsai, and miniature railroad gardens. Also includes useful appendices that list of conifers for various problems and conditions, like conifers for areas plagued by deer and the best conifers for Christmas trees and Southern gardens. Each section is enlivened with gorgeous color photographs. Whatever landscape situation or challenge a gardener designer faces, Designing with Conifers shows how to make the best choice from this beautiful, useful, and versatile group of plants.

A guide to selecting the proper conifer and ginkgo for the landscapes and climates of the Southeast.

Conifers are the perfect choice for groundcovers, shrubs, or trees in almost any garden. Evergreen and always architecturally interesting, they're also drought, pest-, and disease-resistant, and rarely have any demanding cultivation needs. The Timber Press Pocket Guide to Conifers is the perfect companion for anyone who needs a portable guide to conifer choices. With everything you need to know to choose and grow just the right conifer, this book also provides stunning photos of conifers in gardens so you can pick the plant you truly love.

A compelling account of the extraordinary relatives of ordinary garden conifers. Leading expert Aljos Farjon provides a compelling narrative that observes conifers from the standpoint of the curious naturalist. It starts with the basic question of what conifers are and continues to explore their evolution, taxonomy, ecology, distribution, human uses, and issues of conservation. As the story unfolds many popular misconceptions are dispelled, such as the false notion that all conifers have cones. The extraordinary diversity of conifers begins to dawn as

Farjon describes the diminutive creeping shrub *Microcachrys tetragona*, whose strange seed cones resemble raspberries, and the prehistoric-looking *Araucaria meulleri*. The taxonomic diversity of conifers is huge and Farjon goes on to relate how, over the course of 300 million years, these trees and shrubs have adapted to survive geological upheavals, climatic extremes, and formidable competition from flowering plants. All who seek to learn more about the early history of life on our planet will cherish this book.

"Covers virtually every aspect of conifer use and culture in a format accessible to horticultural students and home gardeners alike ... Magnificently highlighted by more than 250 striking color photographs ... Conifers are showcased in their full glory as richly textured, brilliantly colored, and subtly structured plants deserving of a spot in every garden." -- Booklist Fifteen years after this review, we present a revised and expanded edition of this highly acclaimed reference. Among the changes is the addition of a foreword by Michael A. Dirr, author of such classics as *Dirr's Hardy Trees and Shrubs: An Illustrated Encyclopedia*. New content and updates are found in "Why Conifers?," "The Magic of Conifers," "A Closer Look at Conifers" and in the detailed practical section, "Growing Conifers in Your Garden." This edition features the author's comprehensively revised Directory of 600 conifers, so current that it includes *Wollemia nobilis*, a two million-year-old species only recently found and genetically identified, and available at a select few nurseries. Other new features are "Conifers that Grow on You" and "The Mauergarten Story," which chronicles the author's design of the garden at one of Germany's premiere nurseries. Comprehensive in scope and lavishly illustrated, the book includes a directory of more than 600 conifers and expert advice on: Size and growth rates, Canada/USA hardiness ratings Site and soil preferences Planting, maintenance and propagation Pruning, pests and diseases Dwarf conifers and ground covers Conifers in containers, moving conifers, and more. *Gardening with Conifers* is a thorough and beautiful guide to coniferous trees and shrubs of the world available to North American gardeners. Stunning color photographs show conifers young and old in a variety of environments, from small gardens to many-acred gardens. It reveals the magic that conifers bring to a garden and how they create structure and balance for year-round visual interest and color.

You may never look at a garden in the same way again. Though not a "how-to" book, *Beauty By Design* is a treasure trove of ideas and enchantment for seasoned gardeners and beginners alike. Eleven inspired artists of the garden share their stories, their secrets, and their passion for gardening. Landscape is the canvas. Foliage, flowers, rocks, water, and other bounties of nature are the materials. With plants, objects, art, and artifice, they create magical spaces, engage our senses, and summon forth pure delight. Travel with Bill Terry and Rosemary Bates to these special places on the Pacific Northwest coast. Visit Dan Hinkley's enchanted garden, perched above the shore of Puget Sound in Washington State. Close by, beauty explodes in an earthly paradise created by sculptors George and David Lewis and in Linda Cochran's stunning garden of exotics. Cross the Strait of Juan de Fuca to Vancouver Island and potter Robin Hopper's "Anglojapanadian" woodland wonderland. Enjoy the subtle blending of texture and colour in painter Eva Diener's Sunshine Coast botanical garden. Admire the genius of Robert and Birgit Bateman's inspiring space on Salt Spring Island, Des and Sandy Kennedy's fairy-tale forest house and garden on Denman Island, and Kathy Leishman's garden of refinement for all seasons on Bowen Island. In downtown Vancouver, Glen Patterson indulges his passion for alpiners and conifers in his astonishing third-storey roof garden. Elsewhere in the city, Pam Frost's eye for colour and arrangement transports the viewer out of the urban into the sublime, while on the Saanich Peninsula, writers Lorna Crozier and Patrick Lane speak with love and eloquence of their garden, and in verse, too. Accompanied by breathtaking photographs, these gardeners and their
