can successfully improve the performance of component marketing. The authors have examined more than one hundred examples, analyzed four industries and developed nine detailed case studies to demonstrate the viability of this marketing innovation. The new concepts and principles can easily be applied by professionals. In the light of the success stories of Intel, GoreTex, Dolby, TetraPak, Shimano, and Teflon it can be expected that component suppliers will increasingly use Ingredient Branding strategies in the future.

In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and

financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a "war without borders" led by the U.S. and its NATO allies. This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken. Each of the authors in this timely collection digs beneath the gilded surface to reveal a complex web of deceit and media distortion which serves to conceal the workings of the global economic system and its devastating impacts on people's lives.

Originally published in 1995, this book was the most up-to-date and comprehensive account of research on occupational stress at the time. It identifies the sources, consequences and treatments

of stress in the workplace from the perspective of organizational psychology and makes clear recommendations for future work in this area. Terry Beehr discusses how role ambiguity and conflict act as stressors in the workplace, and discusses the characteristics of the job and the organization itself that can adversely affect performance. He examines the effects of stress in the workplace and describes methods that can be used to alleviate the problem, both at the individual and organizational level. In addition, the book is illustrated with many examples from field research over the author's twenty years of experience in studying the workplace. This book will be of considerable interest to students and researchers in occupational psychology, as well as managers and trainers. Terry Beehr is still working in this field today.

An annual report is a powerful and revealing document about a company's financial standing, and can offer the savvy reader substantial insight about where the company may be headed in the future. But to the untrained eye, it may seem like walls of accounting technicalities provided to fill up space between the glossy photos and the upbeat "Message from the CEO." Annual Reports 101 gets past the PR machine to show the meaning behind the math. This straightforward guide reveals how to read the primary financial documents in the report, and then extract more information--from the numbers themselves and from the often fluffy text--than some companies want the public to know. The book shows how to watch out for "red flags," decipher footnotes and see past common practices that, while legal, may not give the most accurate picture. Readers of annual reports include

Contrary to popular opinion, college and university faculty often experience a greater amount of stress than professionals in many other occupations. Faculty Stress takes a comprehensive look at faculty stress, its causes, and its consequences. This unique book explores the wide range of factors associated with work-related stress, the sources and perceptions of stress in differing academic environments, and the importance of gender factors in understanding and dealing with work stress in academia. Respected authorities discuss quantitative and qualitative research, case studies, and provide helpful policy recommendations. As higher

education rapidly changes, the importance of understanding and effectively dealing with the stress that faculty endures increases. Faculty Stress explores in detail how change affects work and personal lives of faculty. This revealing book is crucial for current faculty and administrators who want to understand and effectively deal with stress, as well as future faculty who need to know how to better prepare for the rigors of their college and university academic profession. Faculty Stress is a valuable resource for faculty, higher education administrators, graduate students who intend to become faculty, librarians, higher education scholars, and scholars who study work and occupations. This book was published as a special issue of the Journal of Human Behavior in the Social Environment.

The contributions in this volume offer a comprehensive analysis of transitional justice from 1945 to the present. They focus on retribution against the leaders and agents of the autocratic regime preceding the democratic transition, and on reparation to its victims. Part I contains general theoretical discussions of retribution and reparation. The essays in Part II survey transitional justice in the wake of World War II, covering Austria, Belgium, Denmark, France, Germany, Hungary, the Netherlands, and Norway. In Part III, the contributors discuss more recent transitions in Argentina, Chile, Eastern Europe, the former German Democratic Republic, and South Africa, including a chapter on the reparation of injustice in some of these transitions. The editor provides a general introduction, brief introductions to each part, and a conclusion that looks beyond regime

transitions to broader issues of rectifying historical injustice.

This text articulates approaches to gender in the design and implementation of reparations for victims of human rights violations.

Marketing Theory presents a comprehensive scholarly overview of the development of marketing theory. Drawing on a variety of international sources, the three editors bring together key contributions to the field that reflect both historical and contemporary debates and influences. This major work draws together the many disparate perspectives that have contributed to the development of marketing theory to provide scholars with a substantive reference base from which to further develop the area.
