Build your own kitchen cabinets! You don't need a showroom full of equipment or expertise in calculus to build your own kitchen cabinets. In fact, Danny Proulx's concise, easy-to-follow instructions enable you to create incredible kitchens with just a few power tools—a table saw, circular saw, router and drill. Completely revised and updated, *Build Your Own Kitchen Cabinets, Second Edition*, provides start-to-finish guidelines for crafting upper and lower cabinets, plus practical information on kitchen design, material selection and tool shortcuts. Proulx's instruction is practical, easy to understand and time-tested, refined in his own shop, and taught by him in countless seminars and workshops. You'll learn how to plan, design, construct and install your own complete handmade kitchen, from simple cabinets and over-the-sink cupboards to lazy-Susan shelving, stemware, storage and more: • Combine the beauty of traditional face-frame cabinetry with the strength and simplicity of European cabinetry and hardware • Build drawers, pull-outs and flip-outs to maximize storage space • Use European hinges, adjustable legs and other specialized hardware to take the guesswork out of construction and installation • Use simple butt joints to build strong cabinets quickly • Customize your cabinets' looks with a variety of door styles, countertops and finishes Page after page, Danny Proulx proves that you can build your own beautiful kitchen cabinets.

THE MODERN CARAVAN is a warm invitation into rolling homes designed for life on the open road. Brimming with evocative storytelling and hundreds of photographs showcasing handsome interiors and stunning landscapes, this book features 25 stories from solo travelers, couples, and families who traded the comforts of a rooted life for ever-changing vistas and eye-opening experiences. You'll meet a family exploring Australia in a cozy vintage camper filled with plants and natural wood finishes; a young couple designing a modern trailer inspired by the colors and textures of the high desert; a husband and wife living in a chic Airstream with green velvet seating, floral wallpaper, and herringbone wood floors. Balancing style with function, each carefully crafted tiny home is the result of long-held dreams, ingenuity, and imagination.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

It's Grimshaw's job to carry out death bed curses. The more horrible and deadly they are, the more he enjoys them. When his master, Lampwick the Robber, has an unexpected opportunity to curse a whole new set of humans, Grimshaw can't believe his luck! He is desperate to catch a young boy named Fish Jones. But unlike any other human, Fish can see demons, and he is determined to stay alive... But as Grimshaw grows in power, it's not just him against Fish, it's him against the whole world. Can Jones stop the demon's dangerous and terrifying plan? Full of humor and wild imagination, Kill Fish Jones will grip you by the throat and not let go!

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

If you love houseplants but have an unerring ability to kill everything off, fear not, because these cute creations don't require green fingers! There are 25 splendid succulents to make in a variety of shapes and sizes for a touch of indoor greenery that will never need watering, repotting or special plant food. Each project is beautifully photographed and includes clear patterns and guidance. Includes a techniques section that gives clear instructions on all the skills you'll need to make the projects. Easy to follow crochet patterns to create succulents for stylish home interiors.

What do you do when you need furniture for a specific space or purpose in your home and nothing you find fits the bill? Build your own! This book is comprised of 20 furniture projects based on the popular I Can Do That method presented in Popular Woodworking's ICDT video series hosted by Chad Stanton. These projects look good, are well made, yet at the same time achievable for even a beginner with an inexpensive (but decent) set of tools. You'll find clear instructions with complete step-by-step photos, illustrations and cutting lists to help you every step of the way.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
