This is the diary ... of a spider. But don't be worried – he's more scared of you and your gigantic shoe! Actually, he's a lot like you. He goes to gym class and has Grandparents' Day at school. But he also spins sticky webs, scales walls, and takes wind-catching lessons. Lucky for him, his best friend is a fly! Doreen Cronin and Harry Bliss, the team behind the #1 bestselling Diary Of A Worm, spin a hilarious tale about the upside-down web world of an eight-legged charmer and his unlikely friend, Fly.

Worm is all about having fun, respecting the earth, and never taking baths. Many children will relate to this funny character! In Diary of a Worm: Teacher's Pet, Worm makes a surprising discovery—teachers have birthdays. That means Worm and his friends have to find the perfect present for their teacher, Mrs. Mulch. Diary of a Worm: Teacher's Pet is a Level One I Can Read book, which means it is perfect for kids learning to sound out words and sentences.

This is the diary...of a fly. A fly who, when she's not landing on your head or swimming in your soup, is trying to escape her 327 brothers and sisters who are driving her crazy! Even though she's little -- just like her best friends Worm and Spider -- Fly wants to be a superhero. And why not? She walks on walls, sees in all directions at once, and can already fly! Doreen Cronin and Harry Bliss, the team behind the New York Times bestsellers Diary of a Worm and Diary of a Spider, reach hilarious heights with their story of a little fly who's not afraid to dream big. Really big.

"...bright illustrations and simple text, pleasantly presented in read-along form, should be welcomed by budding entomologists." -School Library Journal

Every day, Harry, Phil, and Jim are fed sunflower seeds by the staff who care for them at the Cathedral of St. John the Divine. But one day, they decide they're sick of them. They make a break for the New York City streets in search of pizza or Chinese takeout. But everywhere they go, they're told "No peacocks!" by the restaurant owners. So they try to get an ooey, gooey, delicious meal closer to home. But how are they going to sneak into the school cafeteria and get their wings on the school's world-famous mac 'n cheese? A little plotting, some stolen disguises, and a little help from some students, and the mission is a go! But will the peacocks get their mac 'n cheese? Or will their cover be blown so they have to fly the coop? Based on the real-life beloved bird celebrities who live at the Cathedral of St. John the Divine (who are known to run off the grounds), and brought to the page in bold, bright style, No Peacocks! is a hilarious romp and a perfect read-aloud.

Authentic, leveled content that helps students practice and develop their nonfiction reading skills.

A young child spots a jumping spider on her back porch. She keeps watch on the spider, recording its hunting, feeding, and mating activities in her diary. Readers will follow along as the narrator observes jumping spiders' behavior up close, including the development from eggs to babies through molting and becoming an adult spider. Colorful photos, diagrams, and clear, age-appropriate text will engage young readers as they explore the life cycle, natural habitat, physical characteristics, diet, and behavior of these incredible creatures. The diary format models scientific observation and critical thinking--and encourages children to keep notebooks recording their own investigations into the natural world.

A young spider discovers, day by day, that there is a lot to learn about being a spider, including how to spin webs and avoid vacuum cleaners.

Have you ever wondered what a day in the life of a Creeper would look like? Well, Jasper gives us a sneak peek into the daily life of a Creeper and all of the crazy adventures Creepers go through in order to NOT blow things up!

Told in the first person as if written by Arabella herself, she describes how she was the first spider to spin a web in space in 1973, and even made it into the Guinness Book of World Records. Reading Arabella's diary and the story, we learn how spiders spin webs and why this experiment, suggested by a high school student, was important.
