NEW YORK TIMES BESTSELLER • "A fascinating look at how consumers perceive logos, ads, commercials, brands, and products."—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can "cool" brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

In *Mozart's Piano Music*, William Kinderman reconsiders common assumptions about Mozart's life and art while offering comprehensive and incisive commentary on the solo music and concertos. After placing Mozart's pianistic legacy in its larger biographical and cultural context, Kinderman addresses the lively gestural and structural aspects of Mozart's musical language and explores the nature of his creative process. Incorporating the most recent research throughout this encompassing study, Kinderman expertly surveys each of the major genres of the keyboard music, including the four-hand and two-piano works. Beyond examining issues such as Mozart's earliest childhood compositions, his musical rhetoric and expression, the social context of his Viennese concertos, and affinities between his piano works and operas,
