The Peterson Field Guides are a popular and influential series of American field guides intended to assist the layman in identification of birds, plants, insects and other natural phenomena. The series was created and edited by renowned ornithologist Roger Tory Peterson. His inaugural volume was the classic 1934 book *A Field Guide to the Birds*, published by the Houghton Mifflin Company. The PFG series utilized what became known as the Peterson Identification System, a practical method for field

A practical field guide that features a special system designed to help identify diverse species of insects

Covers over five hundred families of North American insects

Highlighted by more than two thousand digitally enhanced color photographs, a comprehensive guide to the insects of North America contains information--including life histories, behaviors, and habitats--on every major group of insects found north of Mexico.

Supplies practical tips on collecting beetles and discusses the habits and identifying characteristics of the different types of beetles

Describes dangerous mammals, reptiles, spiders, insects, flowers, shrubs, trees, and mushrooms

This field guide sets a new standard for insect identification, making it an indispensable resource to naturalists, educators, gardeners, and others. Engaging and accessible, Pacific Northwest Insects features detailed species accounts, each with a vivid photograph of a living adult, along with information for distinguishing similar species, allowing the reader to identify more than 3,000 species found from southern British Columbia to northern California, and as far east as Montana. The book features most of the commonly encountered insects, spiders, scorpions, millipedes, centipedes, and kin in the Pacific Northwest, as well as representatives of an amazing variety of unusual and interesting insects living in the area. After more than a decade of research, reviewing hundreds of thousands of museum specimens and scouring the technical entomological literature, Merrill Peterson has brought together for the first
