The idea of the book floated about seven years ago, back in 2015, in the reading room of Bhai Gurdas Library, Guru Nanak Dev University, Amritsar when I (Sakshi Sahni) was preparing for my Ph.D. entrance exam along with Hardeep Sekhon who was preparing for Assistant Town Planner exam. As time flew, Sanjay Mishra got involved with the tedious task of typing registers. Puneet Mehra got involved in co-ordinating, sorting and arranging the PPSC papers. Simranjot Singh took all the task of sketching and preparing illustrations using various software like Autocad, Sketchup, coral draw, photo shop etc. Gulpreet Kaur helped in the academic section editing and drafting. Rawal Singh helped in history of Architecture questions and its framing. The huge daunting task which seemed impossible was completed in the span of seven years by consistent efforts of all the authors with grace of almighty. With all of us placed at different locations, managed to contribute what we could do at our best. Planning students were great motivation and inspiration to us for whom the work has been produced and will help in their PPSC and GATE exam preparation. Since all the authors are the product of Guru Ram Das school of Planning, who made us what we are today we would sincerely like to express our gratitude towards our alma mater and would like to dedicate this book to Guru Ram Das ji and to the Department which is celebrating its 50th anniversary this year.

Many books on Database Management Systems (DBMS) are available in the market, they are incomplete very formal and dry. My attempt is to make DBMS very simple so that a student feels as if the teacher is sitting behind him and guiding him. This text is bolstered with many examples and Case Studies. In this book, the experiments are also included which are to be performed in DBMS lab. Every effort has been made to alleviate the treatment of the book for easy flow of understanding of the students as well as the professors alike. This textbook of DBMS for all graduate and post-graduate programmes of Delhi University, GGSIPU, Rajiv Gandhi Technical University, UPTU, WBTU, BPUT, PTU and so on. The salient features of this book are: - 1. Multiple Choice Questions 2. Conceptual Short Questions 3. Important Points are highlighted / Bold faced. 4. Very lucid and simplified approach 5.Bolstered with numerous examples and CASE Studies 6. Experiments based on SQL incorporated. 7. DBMS Projects added Question Papers of various universities are also included.

This chapter discusses about the development of the research problem based upon relevant literature on organisational citizenship behaviour (OCB) and service-dominant logic (SDL). The integrated efforts to synthesise varied literature on dimensions, antecedents (organisational justice, organisational commitment, employee participation, customer participation, motivation, personality traits) and consequences (organisational performance and value creation) of OCB and SDL lead to the identification of research gap and development of conceptual framework of the study. This chapter is divided into two sections. The first section discusses review of literature from synthesised and tabular perspective. The second section discusses in detail, the research framework of the study based on the research gap identified in the study.

Drug Abuse: Concepts, Prevention, and Cessation serves as a comprehensive source of information on the topography of, causes of, and solutions to drug problems. The text covers conceptual issues regarding definitions of drug use, misuse, abuse, and dependence. Importantly, the text addresses a variety of theoretical bases currently applied to the development of prevention and cessation programs, specific program content from evidence-based programs, and program processes and modalities. Information regarding etiology, prevention, and cessation is neatly delineated into (a) neurobiological, (b) cognitive, (c) micro-social, and (d) macro-social/physical environmental units. The book is ideally suited as a primary source for students and professionals in chemical dependence programs, clinical and health psychology, public health, preventive medicine, nursing, sociology, and social work, among other fields, on the nature, causes, prevention, and cessation of the abuse of legal and illegal drugs.
