Learn the Little Known Secrets AA Schools Won't Tell You

Hi, my name is Trevor Thomas. I have an extensive amount of experience in the medical industry, including medical school interviews. After seeing the boom in the AA profession, but no help for students, I decided to come out with a book that provides students all the information they need to have the best chance of getting into Anesthesiologist Assistant school! Here's What You'll Learn in This Book... Part 1: Introduction - First we go over the history of the AA profession, what states currently allow AAs to practice, and the schools currently accepting applicants. We also go over the income and job prospects for new AAs, as well as a website called AAschools dot org, which contains detailed admissions information for all AA schools. Part 2: Schooling and Grades - Next we go over the classes and grades AA schools are looking for in their students. This includes the best major to choose, the minimum GPA you need to have a chance of getting an interview, and the required and preferred classes AA schools are looking for. You'll find out the ideal institution to take your classes to obtain the highest grades, as well as how to give yourself the best chance of getting into AA school even if you don't have a great GPA. Part 3: The GRE & MCAT - After that, we go over both the GRE and MCAT, detailing the best exam to choose when given the choice by AA schools. The CASper exam is also covered in this section. Part 4: Work, Volunteer, & Shadowing Hours - Then we go over how to gain work, volunteer, and shadowing hours to obtain a more well rounded application. This includes how to find anesthesia providers who will allow you to shadow, as well as the types of jobs

and volunteer experience AA schools are looking for. Part 5: The Application Process - This section goes into great detail on the application process, showing you what and how to put into each section of the CASAA application with detailed text and pictures. It also goes over where to get reference letters, how to craft your personal statement, and an excellent free website you can use to add a polished resume to your application. Part 6: The Interview - When the time comes you need to know how to handle the interview. Unlike what AA schools tell students, there are right and wrong ways to answer the interview questions. This section goes over what students can expect during the interview process, the most common questions you will be asked during your AA interview, and how to improve your interviews skills to give you the best chance of getting an acceptance letter. As a complimentary bonus, you'll receive the complete AA school checklist. CASAA and test companies provide no refunds to students, and your CASAA application is not editable after it has been processed. For this reason, you need to make sure your application is complete before hitting that submit button. This checklist form does just that, outlining everything you need to include in CASAA when applying to AA schools. This checklist is not available to the general public, and only available to buyers of this book. If you want give yourself the best chance of getting in AA school, you can't risk not knowing this information! labor force of 153 million, that represents almost 50,000,000 job seekers who are seeking new employment each year. As a result, the job search process is highly competitive at all levels. It can be lengthy, frustrating, prejudicial, and unfair. Older, more traditional job finding techniques have become less productive. The traditional resume no longer has the same impact in generating the all important and often elusive interview. Both the Wall Street Journal and USA TODAY have highlighted the fact that only about 15% of all professionals find a new position through responding to published advertisements or online postings, another 10% through placement agencies or search firms, and only 5% through unsolicited direct mail. Why then, would anyone focus 90% of their time and effort in areas that represent only about 30% of all potential opportunities? It is not uncommon for 200-300 people to respond to help wanted advertisements. Yet seldom do more than 6 to 10 people achieve interviews, and after an often lengthy process, only one person gets the job. Everyone else starts the whole process again. Older Americans, women, and minorities can often face an even more difficult road due to unspoken, but ever-present biases. There is a better way. Tomorrow Is Today dispels the myth that the most qualified candidate always gets the job. It points out that the person who is hired is usually the one who is liked the best. This book can be a major factor in how you differentiate yourself from other candidates when the hiring decision is almost always based upon subjective factors such as the individual 's personality style, body language, and manner of being interviewed. It is an invaluable resource in helping you to achieve your next position with added features that assist in effectively managing both career growth and family issues.
