This book constitutes an expression of experience, review & commentary. It constitutes a First Amendment Expression of Speech as well as religious expression and more written for the public benefit. INTRODUCTION How does the mind of a child perceive the world? A child's perception of the world is different from an adult's perception. And they say, that children are more psychic than adults. This is because children are more 'open' to their environments and less judgmental. I was born intuitive. And I grew up in a world where intuition was misunderstood. Growing up, places, people and things held enhanced sensations. In particular, I remember the fantastical feelings and sensations that toys evoked in me. The items that I chose to photograph for these photo-painting essays were toys that move my soul even today. These are items from childhood that remind me of feelings that I had as a child. All children have fears, of the unknown, of separation, of the darkness. I too remember that when I was a child, I attributed 'living characteristics' to certain toys. Somehow, through my imagination the toys came to life. And some of these toys weren't friendly. These photo-paintings mirror some the fears I beheld as a child. For these photo-painting essays I chose dolls, clowns, cats, and a rubber ducky. These are toys that I loved as a child and still fascinate me today. And I think, if pressed, I would find it hard to part with them. As an artist, I believe animism is possible. I believe that the universe is as yet uncharted and the possibilities of life are endless. Humans, for instance, live in the light and fear darkness. But it's possible there are other intelligent forms of life. And that some of these live in darkness. Children sense things differently. Perhaps, the possibilities of life are greater to them than for adults. And why not? I believe that energy can be inside things. And toys, for some reason, hold a unique interest to these

energies. Could it be because they are uniquely attractive to children and hold their attention? What would happen if your favorite toy suddenly and unexpectedly began to change? What if it began to move? What if it moved its head, hand, or opened its eyes? What if it began to come to life? What if it became possessed? The thought of this possibility has most likely crossed everyone's mind. And these questions are the queries of this art series. This is a serious photo-painting essay art series. Its aim is to take the viewer in a journey into the mind. In this journey, it explores concepts of mind, memory, perception, and emotions. It also explores the unimaginable but wholly explainable concept of predatory behaviors by intelligent beings of other dimensions on human beings. In the end, I believe that we are never alone. Energy abounds around us. I believe that these photo-paintings came out of my deep unconscious. Because of this, in a way, this process of art is cathartic in nature. I hope you will experience something from looking at these. At the least, you might remember a toy or an experience you had in childhood.

The devil goes by many names, and his tribe is legion. Throughout human history, we have been obsessed with the dark opposites of God and angels, light, and mercy. Whether it is our religious and sacred texts, folklore and myths of old, legends, fairy tales, novels, or the movies and television shows of today, the dark entities enthrall us, terrify us, and remind us of the dualities of life. But where did they originate? Are they real? Does every religion or region of the world include them? Exploring over two dozen religious traditions, myths, folkloric and spiritual traditions, the world of the supernatural, and the demons, the Devil, and fallen angels in today's pop culture, *Demons, the Devil, and Fallen Angels* is a comprehensive resource of the many faces of the devil, his minions, ominous deities, and the darker side of nature and ourselves. From ancient demon worship to modern Satanism, the bloody era of the Inquisitions and later witch burnings to the Satanic Panic of the late-twentieth century, and secret occult societies to Hitler's involvement with demonology, this book covers it all. Readers will learn about the key figures in history associated with demons and the Devil, the worshipping of the dark forces, and the lives of Aleister Crowley, John Dee, and Anton LaVey, as well as well-known figures who were alleged Satanists, some of whom may surprise you! Also featured are dozens of examples of links between demons/fallen angels and aliens, cryptids, apparitions and poltergeists, and IDEs (interdimensional entities). Were the demons of the Bible possibly ancient alien visitors? Are alien abductions and poltergeists really demons in disguise? Is Slender Man a modern day demonic entity ... or totally fake? This fascinating look at Satan, evil spirits, and their 10,000-year history has 120 photographs, drawings, and illustrations to bring the portraits of over 200 demons and fallen angels to shivering life. *Demons, the Devil, and Fallen Angels* also includes a helpful bibliography and an extensive index, adding to its usefulness. It is a comprehensive, clear, and objective look at a subject that fills most people with fear and dread. Yet the presence of dark angels continues to remain a part of our human experience, our popular culture, and our spiritual understandings. Come and explore the shadowy side of existence and its integral part of our nature.

The subject of an afterlife and ghosts has a universal appeal that transcends time and culture. This book sheds light on the topic, while simultaneously offering some practical advice for living in this world with its limited number of hours we have left. The author's journey through his own personal experiences will help others who are also seeking to understand the supernatural. It is hoped that it may be helpful to those who believe they see or hear something beyond our physical reality. In addition - perhaps more importantly - there is no better way than reading about someone else's experience to gain perspective from another angle. If you are experiencing paranormal activity in your life, please know that it is not always due to evil spirits or malicious intent. Some things simply cannot be explained by science alone.

Dive into the ghostly world of the supernatural with America's leading paranormal investigator Inside, paranormal investigator, star, and executive producer of The Travel Channel's hit series, Ghost Adventures and founder of the award-winning Haunted Museum (Las Vegas' most popular attraction), Zak Bagans takes readers on an exciting journey into the supernatural world. With insider information on the history of ghost-hunting to learning about ghosts with all kinds of temperaments, Ghost-Hunting For Dummies is peppered with true accounts and stories from Bagans' famous cases and investigations. Featuring expert advice on picking a haunted location, setting up cameras, and dealing with unwieldy ghosts, this book shows how today's investigators use the tools of modern science to study a wide range of paranormal activity. Take an exciting adventure into the supernatural world Explore haunted sites Get messages from beyond the grave Read true accounts from famous cases and investigations If you're one of the countless fans of Ghost Adventures itching to get off the couch and track some spirits on your own, this book provides everything you need to know to conduct a successful paranormal investigation.

In this lavishly illustrated volume, Richard E. McCabe, Bart W. O'Gara and Henry M. Reeves explore the fascinating relationship of pronghorn with people in early America, from prehistoric evidence through the Battle of Little Bighorn in 1876. The only one of fourteen pronghorn-like genera to survive the great extinction brought on by human migration into North America, the pronghorn has a long and unique history of interaction with humans on the continent, a history that until now has largely remained unwritten. With nearly 150 black-and-white photographs, 16 pages of color illustrations, plus original artwork by Daniel P. Metz, *Prairie Ghost: Pronghorn and Human Interaction in Early America* tells the intriguing story of humans and these elusive big game mammals in an informative and entertaining fashion that will appeal to historians, biologists, sportsmen and the general reader alike.

With entries that range from specific works to authors, folklore, and popular culture (including music, film, television, urban legend, and gaming), this book provides a single-volume resource on all things ghostly in the United States and in other countries. • Provides accessible, interesting, and fun-to-read information authored by expert researchers and coedited by scholars who are experts on the topic of ghosts across human culture • Presents analytical discussions of the figure of the ghost in each work that will be beneficial to students in film studies, English, or other classes tasked with writing an essay on the horror genre or ghost films and books • Explores how the idea of the ghost implies belief in there being more to human existence than the physical body and is intrinsically connected to the concept of the afterlife—and how these concepts often coexisted uneasily with beliefs regarding afterlife in religious theologies

Rooted in the creative success of over 30 years of supermarket tabloid publishing, the Weekly World News has been the world's only reliable news source since 1979. The online hub www.weeklyworldnews.com is a leading entertainment news site.

Beware...this book is cursed! These strange but true stories of the world's most infamous items will appeal to true believers as well as history buffs, horror fans, and anyone who loves a good spine-tingling tale. They're lurking in museums, graveyards, and private homes. Their often

tragic and always bizarre stories have inspired countless horror movies, reality TV shows, novels, and campfire tales. They're cursed objects, and all they need to unleash a wave of misfortune is . . . you. Many of these unfortunate items have intersected with some of the most notable events and people in history, leaving death and destruction in their wake. But never before have the true stories of these eerie oddities been compiled into a fascinating and chilling volume. Inside, readers will learn about:

- Annabelle the Doll, a Raggedy Ann doll that featured in the horror franchise *The Conjuring*
- The Unlucky Mummy, which is rumored to have sunk the Titanic and kick-started World War I
- The Dybbuk box, which was sold on eBay and spawned the horror film *The Possession*
- The Conjured Chest, which has been blamed for fifteen deaths within a single family
- The Ring of Silvanus, a Roman artifact believed to have inspired J. R. R. Tolkien's *The Hobbit*
- And many more!

The walls are infected, the foundation is diseased...this house is poisoned. CORE agent, Hudson Patterson and his wife, Eden, recently moved into a century-old mini-mansion. But their dream home has become a living nightmare—occupied by a malevolent spirit who will only share the residence with them and their daughter...in exchange for their souls. Psychic Celeste Kain is four weeks away from giving birth. The last thing she wants to deal with is the dead. But when she realizes an evil presence is terrorizing Eden, she will go to any length to help her sister. Especially when she discovers there isn't just one ghost in Eden's house, but many other tortured souls trapped within its infected walls. To put an end to the haunting, Celeste uses her unique gift to connect with the ghostly residents. But the wicked entity who has been feeding off the other spirits' pain and misery has other plans. It wants Celeste and her unborn child, and imprisons her inside the ghost house. Now powerless, unable to free herself and in labor, Celeste needs to fight to find her way back to her body before the entity can take what it wants...her baby.
