Home health aide inservice training is vital to quality patient care and is mandated by your state. How can you be sure you're providing the best training possible without spending hours of preparation time?The solution is here. "24 Essential Inservices for Home Health" includes everything you need to provide 24 complete inservices on the most important topics--at the very low cost of just \$6 per lesson.A comprehensive training tool For each topic, you'll receive a comprehensive inservice that can be used as a group lessons or for self-study by individual aides and nurses. Each inservice includes an in-depth lesson plan a post-test to document the training, and a certificate of completion for staff. The companion CD-ROM makes the lessons easy-to-customize All materials are in the manual AND on the included CD-ROM--enabling you to modify the lessons to meet the particular needs of your agency or the requirements of your state. Use the inservices over and over again--just print out the materials from the CD-ROM as necessary You'll get everything you need to provide an information-packed 30-minute inservice on any of the 24 essential topics. If you prefer, add your own agency-specific information, demonstrations, and discussion time to extend the training to 60 minutes or more The best value on the market For about \$6 per lesson, you'll receive everything necessary to provide CMS-compliant home health aide education on the following 24 topics: Alzheimer's Disease Basic Nutrition: Guidelines for Balanced Meals and Special Diets Behavior Management Bloodborne Pathogens and Standard Precautions Care of the Skin: Guidelines for Ensuring Skin Integrity Caring for Residents with Dementia Depression and Anxiety Diabetes Elder Abuse and Neglect: Preventing, Recognizing, and Reporting End-of-Life Care Guidelines for Providing Personal Care Heart Disease Incontinence and Constipation Infection Control Guidelines: Standard Precautions & Additional Precautions Lifting and Transferring Malnutrition and Dehydration Mental Illness Oxygen Training Psychosocial Care Range of Motion and Positioning Respiratory Disorders Understanding Pain Vital Signs: Guidelines for Measuring Vital Signs and Weight Seizures and Strokes

Home Health Aide On-the-go In-service Series, Volume 16 Each year, home health aides must meet the Centers for Medicare & Medicaid Services' (CMS) annual requirement to complete 12 hours of in-service training. HCPro's Home Health Aide On-the-go In-service Series, Volume 16 includes topics that cover the most current best practices and guidelines, with new statistics, quizzes, and case studies. This volume delivers the education that home health aides need to fulfill CMS' annual 12-hour training requirement for homecare. Complete with 12 lessons, this resource provides authoritative, comprehensive, easy-to-understand training for self-study or the classroom. All 12 lessons include a case study, suggested supplemental learning activities, a posttest, and an attendance log to enhance the education process. Volume 16 includes brand-new topics that cover today's issues: Pressure injuries, incorporating new guidelines from the National Pressure Ulcer Advisory Panel Traumatic brain injury Considerations for LGBT patients Considerations for social media use Zika prevention, transmission, and care With this resource, agencies will be able to: Help home health aides fulfill CMS' annual mandate

to complete 12 hours of in-service training with condensed, practical lessons that focus specifically on their role and needs Easily prepare an in-service training program for the entire calendar year without having to coordinate staff schedules for on-site training Copy lessons, attendance logs, and customizable certificates of completion for each participant through single-site reproduction rights Each lesson contains new and updated content, including: One hour of study, including a concisely written fact sheet, explaining an important homecare-specific topic A descriptive homecare-specific case study Supplemental learning activities A 10-question posttest to measure aides' understanding and validate their comprehension of the subject matter An attendance log and certificate of completion to document staff training hours

Home health aides must meet the Centers for Medicare & Medicaid Services' (CMS) annual requirement to complete 12 hours of in-service training. Deliver the relevant education your aides need to satisfy this requirement with HCPro's Home Health Aide On-the-Go In-service Series, Volume 15. This new edition is filled with 12 informative, one-hour in-service training lessons addressing timely topics that are crucial to homecare. Home Health Aide On-the-Go In-service Series, Volume 15, also provides authoritative, comprehensive, yet easy-to-understand training lessons for group classroom settings or self-study. The in-services offer home health aides the convenience and flexibility to study when time permits and to learn at their own pace. The lessons include both clinical topics, such as avoiding UTIs and colostomy care, and staff training topics, such as ethics and a basic understanding of Medicare and OASIS-C1. With this resource, agencies will be able to: Help home health aides fulfill CMS' annual mandate to complete 12 hours of in-service training with condensed, practical lessons that focus specifically on their role and needs Easily prepare an in-service training program for the entire calendar year without having to coordinate staff schedules for on-site training Copy lessons, attendance logs, and customizable certificates of completion for each participant through single-site reproduction rights Each lesson includes new and updated content, including: One hour of study, including a concisely written fact sheet, explaining an important homecare-specific topic A descriptive homecare-specific case study Supplemental learning activities A 10-question posttest to measure aides' understanding and validate their comprehension of the subject matter An attendance log and certificate of completion to document staff training hours

## Online Library Home Health Aide Inservice Topics

It is my hope that this text, when properly used will be of great benefit to the individual aide or aide intraining in mastering the required skills that would make the individual a good home health aide. The book has been specially tailored as a teaching tool for home health aides. The book has two sections, the tutorial section one and the practical hands on section two. The second section is a good aide or good training tool for practical demonstration purposes. For the purpose of understanding only, a home health aide does not have to be a Certified Nurses Aide. As a result this book can be used to train and prepare an individual to function in the capacity of a home health aide. The agency must prepare a set of standardized tests for the aides to ensure that the individual have fully internalized the reaching and training that they have been put through. This book further addresses the rule and regulation (federal and State) that the home health aide must be familiar with. This book is an excellent tool for the home health aide. I strongly encourage all individual who practice and plans to practice as an aide in the home health field to read this book.

Every year, home health aides must satisfy 12 hours of in-service training. With today's irregular, part-time schedules, making sure they complete their required in-services can be a never-ending chore. Now you can satisfy Medicare's annual 12-hour aide in-service requirement without bringing your staff into the office for training.
