Instructors consistently ask for a human biology textbook that helps students develop an understanding of the main themes of biology while placing the material in the context of the human body. Mader's Human Biology was developed to fill this void. To accomplish the goal of improving scientific literacy, while establishing a foundation of knowledge in human biology and physiology, Human Biology integrates a tested, traditional learning system with modern digital and pedagogical approaches designed to stimulate and engage today's student. Multimedia Integration: Michael Windelspecht represents the new generation of digital authors. Through the integration of multimedia resources, such as videos, animations and MP3 files, and in the design of a new series of guided tutorials, Dr Windelspecht has worked to bring Dr. Mader's texts to the new generation of digital learners. A veteran of the online, hybrid, and traditional teaching environments, Dr. Windelspecht is well versed in the challenges facing today's students and educators. Dr. Windelspecht guided all aspects of the Connect content accompanying Human Biology. The authors of the text identified several goals that guided them through the revision of Human Biology, Thirteenth Edition: build upon the strengths of the previous editions of the text enhance the learning process by integrating content that appeals to today's students deploy new pedagogical elements, including multimedia assets, to increase student interaction with the text develop a new series of digital assets designed to engage the modern student and provide assessment of learning outcomes.

This market leading human biology text emphasizes the relationships of humans to other living things. Human Biology remains user friendly; relevancy and pedagogy are among its strengths. In this edition, as in previous editions, each chapter presents the topic clearly and distinctly so that students will feel capable of achieving an adult level of understanding. Detailed, high-level scientific data and terminology are not included because Dr. Mader believes that true knowledge consists of working concepts rather than technical facility..

Instructors consistently ask for a Human Biology textbook that helps students understand the main themes of biology through the lens of the human body. Mader's Human Biology accomplishes the goal of improving scientific literacy, while establishing a foundation of knowledge inhuman biology and physiology. The text integrates a tested, traditional learning system with modern digital and pedagogical approaches designed to stimulate and engage today's student. Dr. Michael Windelspecht represents the new generation of digital authors. Through the integration of an array of multimedia resources, Michael has committed to delivering the tried-and-true content of the Mader series to the new generation of digital learners. A veteran of the online, hybrid, and traditional teaching environments, Michael is well-versed in the challenges facing the modern student and educator.
