Smart View is Oracle's add-in for integrating Microsoft Office with Hyperion, Essbase, and OBIEE+. In this book, we'll help you learn how to use the Smart View add-in to access Essbase data. This book is your key to unlocking the world of Essbase analysis through Smart View. Join us as we guide you all the way from the basics of accessing Essbase to the more advanced portions of the Smart View add-in for Microsoft Office on your quest towards becoming a Smart View guru!

Essbase is everywhere these days. To survive and be productive in the business world, you need to take control of Essbase. If you don't have time (and money in the budget) to go to a class, if you just want to learn at your own pace, or if you want the information not covered in classes, this book will show you the way. Whether you're an end user looking to better analyze information or an admin building new applications, you will become a master of Essbase as your fellow workers look at you in sheer, dumbstruck awe. You will learn how to: Use the Excel Add-In and Smart View Add-in to retrieve and analyze data. Create dynamic reports that change as new data is uploaded. Build different types of applications quickly and easily following the proven steps provided in this guide. Use advanced techniques such as tuning and optimization, calc scripts, and MaxL.

How Can I Use Essbase to Analyze Data? With millions of users world-wide, Essbase seems to be everywhere these days and now it's a part of your life. You want to slice and dice data, analyze information, and make highly formatted spreadsheet retrievals. You're sure Essbase is the answer and thank goodness your boss bought copies of this book for your entire department! This book is your key to unlocking the world of analysis through Essbase. You will learn: [How to connect to Essbase databases and retrieve data [What is multi-dimensionality and why should you care? [The basics of Essbases end-user add-ins for adhoc analysis [Steps to creating highly formatted reports and templates that you can use month after month [Creation and saving of advanced analytic queries using the query designers

How Can I Use Oracle Hyperion Planning to plan, budget and forecast? Oracle Hyperion Planning is the market leading budgeting and forecasting solution that provides powerful planning capabilities over the web and in Microsoft Excel. This book is your key to unlocking the world of Planning from an end user perspective, guiding you through the ins and outs of Planning on your quest to a better budgeting and forecasting process which in turn leads to better enterprise performance. You will learn: What is Oracle Hyperion Planning and how to connect; How to plan over the web; How to plan and build models in Microsoft Excel with Smart View; All of the Planning end user features like supporting detail, cell text, document attachments, adjusting, grid spreader and more; How to perform adhoc analysis and create reports using Smart Slices and Report Designer from Planning data forms; Steps to review and approve budgets through process management Content covers both Planning 9.3.1 and 11.1.1 versions.

The MDX Cube Reporting Guide provides information to integrate MicroStrategy with MDX cube sources. You can integrate data from MDX cube sources such as SAP BW, Microsoft Analysis Services, and Hyperion Essbase into your MicroStrategy projects and applications.

Essbase is everywhere these days. To survive and be productive in the business world, you need to take control of Essbase. If you don't have time (and money in the budget) to go to a class, if you just want to learn at your own pace, or if you want the i
