In 2007, the Department of Veterans Affairs (VA) and Department of Defense (DoD) received presidential direction to conduct a joint program to modernize and improve the disability evaluation and compensation process for wounded, ill, and injured Soldiers. VA and DoD collaborated to develop the Integrated Disability Evaluation System(IDES).The goals of IDES are to:• Reduce the overall time it takes a Soldier to progress through the IDES process, starting at the time of referral to the Medical Evaluation Board (MEB) and ending upon receipt of VA benefits or return to duty (RTD);• Utilize a single examination process that meets the needs of VA and DoD; and• Increase transparency of both the military disability evaluation system and VA claims processes for wounded, ill, and injured Soldiers and their families.The IDES process identifies all medical and/or psychological conditions that impact military occupational function for the purposes of determining fitness for duty and entitlement to military and/ or VA disability compensation. The core IDES process is standardized to ensure that each Soldier, Command, and the Army Staff understand their critical contributions to case processing. Accountability measures based on the minimum necessary standards are in place at all levels across the Army. This guidebook clarifies the processes, roles and responsibilities, and standards measured at each IDES step.The IDES Guidebook is intended solely to provide MTFs and their personnel with a description of IDES practices and procedures. The IDES Guidebook should not be construed or referenced as an authoritative source for IDES regulations or policy. In-text citations refer to authoritative IDES policy and regulations. Readers should always seek out these authoritative sources when necessary and should not, in any case, cite to the IDES Guidebook as Department of the Army policy.

Drawing on such unique sources as Thornton Wilder's unpublished letters, journals, and selections from the extensive annotations Wilder made years later in the margins of the book, Tappan Wilder's Afterword adds a special dimension to the reissue of this internationally acclaimed novel. The Ides of March, first published in 1948, is a brilliant epistolary novel set in Julius Caesar's Rome. Thornton Wilder called it "a fantasia on certain events and persons of the last days of the Roman republic." Through vividly imagined letters and documents, Wilder brings to life a dramatic period of world history and one of history's most magnetic, elusive personalities. In this inventive narrative, the Caesar of history becomes Caesar the human being. Wilder also resurrects the controversial figures surrounding Caesar -- Cleopatra, Catullus, Cicero, and others. All Rome comes crowding through these pages -- the Rome of villas and slums, beautiful women and brawling youths, spies and assassins.

The classic Thornton Wilder novel that recreates the dazzling ancient Roman empire of Julius Caesar—now with a new introduction by Jeremy McCarter, author of Young Radicals and co-author

(with Lin-Manuel Miranda) of the #1 New York Times bestseller Hamilton: The Revolution. First published in 1948, The Ides of March is a brilliant epistolary novel of the Rome of Julius Caesar. Through imaginary letters and documents, Wilder brings to life a dramatic period of world history and one of its magnetic personalities. In this novel, the Caesar of history becomes Caesar the human being as he appeared to his family, his legions, his Rome, and his empire in the months just before his death. In Wilder's inventive narrative, all Rome comes crowding through his pages: Romans of the slums, of the villas, of the palaces, brawling youths and noble ladies and prostitutes, and the spies and assassins stalking Caesar in his Rome. Vivid, compelling, and engaging, The Ides of March showcases Thornton Wilder's unique storytelling genius. This special edition also includes an afterword by Wilder's nephew, Tappan Wilder, with illuminating documentary material about the novelist and story.

In Rome in 62 A.D., seventeen-year-old Hylas must find a way to save himself, his mother, and the other household slaves from imprisonment and imminent death when their master, a prominent senator, is found murdered.

This volume studies a fundamental element of Montesquieu's argumentative architecture that is most apparent in his De l'Esprit des Lois: the problem of giving order to, and establishing a network of consistent explanations of political, social and cultural diversity. Following a thorough and careful analysis of his writings, the volume approaches this subject by observing the use of the information sources available to Montesquieu, the relationships between them, and the judgments he expresses. The book examines some of Montesquieu's essential theoretical contributions, such as the idea of despotism, and the connection between politics, society and religion, on the basis of his reflections on the variety of mainly non-European societies and cultures. It demonstrates a number of possible inconsistencies and unresolved questions in Montesquieu's argumentation. One of the main subjects of the book is the consideration of geographical context as an essential element for elaborating uniform criteria of political analysis. The book collects contributions concerning Montesquieu's reflections on China, Tartary, Japan, India, America, Russia, and the Islamic world, and, building on this earlier research, it shows the importance of Montesquieu's thought and explains the reason for his longstanding influence.

Unraveling the many mysteries surrounding the murder of Julius Caesar The assassination of Julius Caesar is one of the most notorious murders in history. Two thousand years after it occurred, many compelling questions remain about his death: Was Brutus the hero and Caesar the villain? Did Caesar bring death on himself by planning to make himself king of Rome? Was Mark Antony aware of the plot, and let it go forward? Who wrote Antony's script after Caesar's death? Using historical evidence to sort out these and other puzzling issues, historian and award-winning author Stephen Dando-Collins takes you to the world of ancient Rome and recaptures the drama of Caesar's demise and the chaotic aftermath as the vicious struggle for power between Antony and Octavian unfolded. For the first time, he shows

how the religious festivals and customs of the day impacted on the way the assassination plot unfolded. He shows, too, how the murder was almost avoided at the last moment. A compelling history that is packed with intrigue and written with the pacing of a first-rate mystery, The Ides will challenge what you think you know about Julius Caesar and the Roman Empire.
