This new Second Edition of the acclaimed & successful work, originally produced by the EEC Law Commission of the Association internationale des jeunes avocats (A.I.J.A.), has now been thoroughly revised, updated, & also expanded to include EFTA countries. An assessment of EEC (and in turn the situation pertaining to EFTA states) law & jurisprudence as it affects agency, distribution & franchising agreements is made at the outset. There then follows a detailed comparative analysis of the different national legal regimes (country by country) governing such arrangements within the EC & EFTA states, & an explanation of the extent to which EC law & practice is or may already be applicable to them. The authors are practitioners of law who are frequently involved in the field of commercial agency & distribution agreements in the twelve member states, & members of the Association internationale des jeunes avocats (A.I.J.A.).

To mitigate the consequential problems, the book proposes and describes a comprehensive framework for a preferable system of reviewing arbitration agreements and arbitral awards. To this end, it explores the prerequisites of this system through comparative legal analysis of the German, Belgian, French and English systems of review, an assessment of the observable aspects of arbitral practice, game theoretical analysis of the arbitral process, and microeconomic analysis of the cross-border market for commercial agency.
