In 1638, a small book of no more than 92 pages in octavo was published “ appresso Gioanne Calleoni ” under the title “ Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice. ” It was dedicated to the Doge of Venice and his counsellors, who are labelled “ lovers of Truth. ” The author of the book was a certain Simone (Sim a) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the seventeenth century. Luzzatto ’ s political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are “ wellsuited for trade, ” much more so than others (such as “ foreigners, ” for example). The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto ’ s argument is that this talent could be put at the service of the Venetian government in order to maintain – or, more accurately, recover – its political importance as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism ’ s alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential to point out Luzzatto ’ s resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto ’ s texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.

The Religious Polemics of the Muslims of Late Medieval Christian Iberia examines the corpus of polemical literature against the Christians and the Jews of the protected Muslims (Mudejars) preserved in Arabic and in Aljamiado (Spanish in Arabic characters).

This volume approaches the history of water in the Iberian Peninsula in a novel way, by linking it to the ongoing international debate on

water crisis and solutions to overcome the lack of water in the Mediterranean. What water devices were found? What were the models for these devices? How were they distributed in the villas and monastic enclosures? What impact did hydraulic theoretical knowledge have on these water systems, and how could these systems impact on hydraulic technology? Guided by these questions, this book covers the history of water in the most significant cities, the role of water in landscape transformation, the irrigation systems and water devices in gardens and villas, and, lastly, the theoretical and educational background on water management and hydraulics in the Iberian Peninsula between the sixteenth and the nineteenth centuries. Historiography on water management in the territory that is today Spain has highlighted the region's role as a mediator between the Islamic masters of water and the Christian world. The history of water in Portugal is less known, and it has been taken for granted that is similar to its neighbour. This book compares two countries that have the same historical roots and, therefore, many similar stories, but at the same time, offers insights into particular aspects of each country. It is recommended for scholars and researchers interested in any field of history of the early modern period and of the nineteenth century, as well as general readers interested in studies on the Iberian Peninsula, since it was the role model for many settlements in South America, Asia and Africa.

How can art act as an intercultural mediator for dialogue? In order to scrutinize this question, relevant theoretical ideas are discussed and artistic intervention projects examined so as to highlight its cultural, political, economic, social, and transformational impacts. This thought-provoking work reveals why art is needed to help multicultural neighbourhoods and societies be sustainable, as well as united by diversity. This edited collection underlines the significance of arts and media as a tool of understanding, mediation, and communication across and beyond cultures. The chapters with a variety of conceptual and methodological approaches from particular contexts demonstrate the complexity in the dynamics of (inter)cultural communication, culture, identity, arts, and media. Overall, the collection encourages readers to consider themselves as agents of the communication process promoting dialogue.

This book investigates the geopolitics and strategic dimensions of US-American foreign policy during George W. Bush's and Barack Obama's presidential terms. Based on a vast amount of empirical and historical sources, the author offers deep insights into the recent political developments ('Arabellions') along the axis of Northern Africa, the Middle East, and Central Asia, situating them in the context of the global geopolitical and geo-economical Great Game, either latent or overt, between USA/NATO and Russia. The author also analyses the influence of the US on these historical and political processes in the last two decades.

Articles in this volume, originally presented at the 1998 Symposium Hellenisticum in Lille, discuss theological questions that were central to the doctrines of the dominant schools in the Hellenistic age, such as the existence of the gods, their nature, and their concern for humankind.

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school,

and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.
