This beautiful book is an encyclopedic, behind-the-scenes look at how the machines were designed and built containing examples of every model line built by John Deere since 1919. Matching the strong visuals is an in-depth history that includes interviews with the engineers, industrial designers, and other Deere & Co. people who designed, built, and sold the machines.

Includes chapters on orbital mechanics, spacecraft construction, satellite-path radio wave propagation, modulation techniques, multiple access, and a detailed analysis of the communications link.

With data drawn directly from the McCormick / International Archives, this book provides collectors with all the information they'll need about IH tractors. This data book includes technical specifications, serial numbers, and codes for engines, carburetors, magnetos and options.

Crime Scene Investigation offers an innovative approach to learning about crime scene investigation, taking the reader from the first response on the crime scene to documenting crime scene evidence and preparing evidence for courtroom presentation. It includes topics not normally covered in other texts, such as forensic anthropology and pathology, arson and explosives, and the electronic crime scene. Numerous photographs and illustrations complement text material, and a chapter-by-chapter fictional narrative also provides the reader with a qualitative dimension of the crime scene experience.

When you see the connections, you'll see the chemistry. Today's students use textbooks differently than in the past; and Chemistry , Sixth Edition is designed to map to the way you seek and process information. This book is known for a smart, precise presentation that blends the quantitative and visual aspects of general chemistry. Features like Remember..., Conceptual Problems, Conceptual Worked Examples, Inquiry and Worked Examples make these critical connections clear and visible, so you'll really see the chemistry the first time. This edition features the exact same content as the traditional text in a convenient, three-hole- punched, loose-leaf version. Books à la Carte also offer a great value--this format costs 35% less than a new textbook.
