The first in-depth look at Lance Armstrong's doping scandal, the phenomenal business success built on the back of fraud, and the greatest conspiracy in the history of sports Lance Armstrong won a record-smashing seven Tours de France after staring down cancer, and in the process became an international symbol of resilience

and courage. In a sport constantly dogged by blood-doping scandals, he seemed above the fray. Then, in January 2013, the legend imploded. He admitted doping during the Tours and, in an interview with Oprah, described his "mythic, perfect story" as "one big lie." But his admission raised more questions than it answered—because he

didn't say who had helped him dope or how he skillfully avoided getting caught. The Wall Street Journal reporters Reed Albergotti and Vanessa O'Connell broke the news at every turn. In *Wheelmen* they reveal the broader story of how Armstrong and his supporters used money, power, and cutting-edge science to conquer the world's most

Wheelmen introduces U.S. Postal Service Team owner Thom Weisel, who in a brazen power play ousted USA Cycling's top leadership and gained control of the sport in the United States, ensuring Armstrong ' s dominance. Meanwhile, sponsors fought over contracts with Armstrong as the entire sport of cycling

What had been a quirky, working-class hobby became the pastime of the Masters of the Universe set. It reveals the competitiveness and ingenuity that sparked blood-doping as an accepted

It went on to become a New York Times Bestseller, a Wall Street Journal Business Bestseller, and win numerous awards, including a Gold Medal for the Axiom Business Book Awards. At

Bringing together well-established interdisciplinary scholars - including geographers Phil Hubbard, Chris Philo and Hester Parr, and sociologists Jenny Hockey,

Mike Hepworth and John Urry - and a new generation of researchers, this volume presents a wide range of innovative studies of fundamentally important questions of emotion. Following an overarching introduction, three interlinked sections elaborate key intersections between emotions and spatial concepts, on which

each chapter offers a particular take informed by substantive research. At the heart of the collection lies a commitment to convey how emotions always spill over from one domain to another, as well as to illuminate the multiplicity of spaces that produce and are produced by emotional life.
