Create high-quality and professional-looking texts, articles, and books for Business and Science using LaTeX.

The invaluable advice from Clare Byam-Cook's bestselling guide What To Expect When You're Breast-feeding...and What if Your Can't? is now available in a handy book of tips. Clear and concise, Top Tips for Bottle-feeding offers constructive advice for mothers who are unable to breast-feed, as well as handy tips on how to wean your breast-fed baby onto a bottle. This book is packed full of simple information for safe and healthy bottle-feeding, including: - How to choose the right formula and bottle for your baby - Advice on sterilising bottles and other equipment - Guidance on how to recognise whether your baby is getting enough nourishment - What to do if your breast-fed baby won't take a bottle

"This book is a collection of work to assist any professional who needs to deal with ethical issues, write up a technical project, give or develop a presentation, or write material for an online audience"--Provided by publisher.

This is a completely revised edition of the best-selling guide to LaTeX document preparation.

This book presents direct and concise explanations and examples to many LaTeX syntax and structures, allowing students and researchers to quickly understand the basics that are required for writing and preparing book manuscripts, journal articles, reports, presentation slides and academic theses and dissertations for publication. Unlike much of the literature currently available on LaTeX, which takes a more technical stance, focusing on the details of the software itself, this book presents a user-focused guide that is concerned with its application to everyday tasks and scenarios. It is packed with exercises and looks at topics like formatting text, drawing and inserting tables and figures, bibliographies and indexes, equations, slides, and provides valuable explanations to error and warning messages so you can get work done with the least time and effort needed. This means LaTeX in 24 Hours can be used by students and researchers with little or no previous experience with LaTeX to gain quick and noticeable results, as well as being used as a quick reference guide for those more experienced who want to refresh their knowledge on the subject.

"Community Pharmacy: Symptoms, Diagnosis and Treatment 4e continues to be the trusted guide to differential diagnosis of symptoms commonly seen by Australian and New Zealand community pharmacists. The fourth edition has been carefully and thoroughly revised and reflects changes to over-the-counter drug scheduling and new over-the-counter drugs. In addition, the text highlights trends in pharmacy education and practice, with an emphasis on counselling, communication skills, evidence-based practice and customer requests specific to Australia and New Zealand." -- Back cover.
