Exploring Psychology in Modules 10e & Launchpad for Myers's Exploring Psychology in Modules 10e (Six-Month Access) by Myers, Professor David G; Dewall, C Nathan at AbeBooks.co.uk - ISBN 10: 1319061524 - ISBN 13: 9781319061524 - Worth Publishers - 2016 - Softcover

The new edition of Exploring Psychology offers outstanding currency on the research, practice, and teaching of psychology. Myers and DeWall inspire students with fascinating findings and applications, effective new study tools and technologies, and a compassionate and compelling storytelling voice. Their presentation is based on the same guiding principles behind the entire family of textbooks that have made David Myers the world's bestselling introductory psychology author: Facilitate learning by teaching critical thinking and helping students at every step. Present psychology as a science, emphasizing the process of inquiry and putting facts in the service of concepts. Make sure students come away with an appreciation of psychology's big ideas, and with a deeper respect for humanity—what drives us, distinguishes us, unifies us. This Exploring Psychology is the first to include Myers' handpicked co-author. Nathan DeWall shares Myers' belief that instilling a sense of curiosity and inquiry about psychological science is an effective way to help students navigate the content, think critically, and prepare for a lifetime of learning and living. The extraordinary, longtime Myers ancillary author team is also here—a group whose teamwork, consistency, and commitment again sets the industry-standard for instructor and student supplements. The high quality that consistently sets Myers' ancillaries apart sees a new incarnation in LaunchPad. This course space organizes all the book's digital resources in an online format that makes it easier for instructors to teach, track, and assess their students

David Myers' new partnership with coauthor C. Nathan DeWall matches two dedicated educators and scholars, each passionate about teaching psychological science through writing and interactive media. With this new edition of the #1 bestselling Psychology, Myers and DeWall take full advantage of what an integrated text/media learning combination can do. New features move students from reading the chapter to actively learning online: How Would You Know puts students in the role of scientific researcher and includes tutorials on key research design principles; Assess Your Strengths self-tests help students learn a little more about themselves, and include tips about nurturing key strengths. These and other innovations rest on the same foundations that have always distinguished a new David Myers edition—exhaustive updating (hundreds of new citations), captivating writing, and the merging of rigorous science with a broad human perspective that engages both the mind and heart.

From its beginnings to this remarkably fresh and current new edition, Myers and DeWall's Psychology has found extraordinarily effective ways to involve students with the remarkable research underlying our understanding of human behavior. But while the content and learning support evolves edition after edition, the text itself continues to be shaped by basic goals David Myers established at the outset, including to connect students to high-impact research, to focus on developing critical thinking skills, and to present a multicultural perspective on psychology, so students can see themselves in the context of a wider world. This new edition offers 2100 research citations dated 2015-2020, making these the most up-to-date introductory psychology course resources available. With so many exciting new findings, and every chapter updated with current new examples and ideas, students will see the importance and value of psychological research, and how psychology can help them make sense of the world around them. The abundant, high quality teaching and learning resources in LaunchPad and in Achieve Read & Practice, carefully matched to the text content, help students succeed, while making life easier and more enjoyable for instructors.

Announcing a new Myers/DeWall text, created specifically for the Fall 2019 AP® course framework! You are likely familiar with the name Dr. David G. Myers. Now, he and his new co-author, Nathan DeWall, bring you a book that will allow you to use College Board's new Personal Progress Checks and Dashboard more effectively. This updated edition includes 100% of the new course content in the new nine-unit structure. All teacher and student resources will also be updated to correlate to the new student edition; this includes the TE, TRFD, TB, Strive, and LaunchPad. Everything will publish in summer 2020 such that you can use this new program for Fall 2020 classes. If you're not familiar with Myers/DeWall texts, you are in for a treat! Drs. Myers and DeWall share a passion for the teaching of psychological science through wit, humor, and the telling of poignant personal stories (individually identified in the text by the use of each author's initials [DM and ND]). Through close collaboration, these authors produce a unified voice that will teach, illuminate, and inspire your AP® students.
