This is just one of the over 1000 sightings of the Loch Ness Monster recorded in the Official Loch Ness Monster Sightings Register. The register records encounters with the Monster that go back almost 1500 years to 565AD. On the 22nd of August in that year the Irish Saint Columba encountered a creature, not in the loch itself, but in the River Ness that flows out of the loch to connect with the North Sea.

~~The Loch Ness Monster Story — Super Natural History~~

The Loch Ness Monster is a mythical animal that allegedly lives in Loch Ness, a large freshwater lake near Inverness, Scotland. Although accounts of an aquatic

~~Loch Ness Monster — Real vs Myth, Location & Lake — HISTORY~~

The Loch Ness Monster, or Nessie (Scottish Gaelic: Uilebheist Loch Nis), is a cryptid in cryptozoology and Scottish folklore that is said to inhabit Loch Ness in the Scottish Highlands. It is often described as large, long-necked, and with one or more humps protruding from the water. Popular interest and belief in the creature have varied since it was brought to worldwide attention in 1933.

~~Loch Ness Monster — Wikipedia~~

Elusive and drenched in uncertainty, The Loch Ness Monster is an aquatic being of enormous magnitude said to dwell in the deepest, darkest depths of Loch Ness in the Scottish Highlands. Tongues first started wagging around 1933 when people began noticing unprecedented sights in and around the loch.

~~The Story Of The Loch Ness Monster~~

The History of the Loch Ness Monster. The Great Glen in the Scottish highlands is a rift valley 60 miles long and contains three famous lochs; Lochy, Oich and Ness. The most famous of these is Loch Ness because of the monster said to 'lurk' in its deep waters. It is deeper than the North Sea and is very long and very, very narrow and has never been known to freeze.

THE LOCH NESS MONSTER. A long, long time ago there was a legend about a monster that lived in a lake called Ness, by the side of a little village in Scotland. No one had ever seen the Loch Ness Monster, but the whole world talked about her. People said that the monster in the lake was as big as a football pitch, that she had four eyes and ate all the little children who went near the lake.

them through a scientific, mythbusting lens, debating whether or not the sightings and evidence provided are adequate proof of their existence. In *The Loch Ness Monster*, readers learn about all the sightings and proof of it, from the famous photograph to the huge "footprints" found by the Loch. It also discusses other history about the monster, such as how Nessie became a major figure in popular culture, and other mythical beings that came from Scotland. Complete with engaging anecdotes, interesting sidebars, and fantastic illustrations, kids won't want to put this book down!

Find out if Scotland's most famous monster really exists in this fun and friendly Nessie story.

The legend of the Loch Ness monster goes back hundreds of years. Believers say that sightings and blurry photographs prove the existence of what appears to be a surviving dinosaur, while skeptics argue that it's a hoax. Beginning readers will be introduced to the elusive Nessie in this intriguing title.

Once upon a time, on a long, slow trip to Scotland, a little girl named Katerina-Elizabeth tossed her oatmeal overboard—again, and again, and again. She was a picky eater, and oatmeal was her least favorite food. And once upon a time, a small worm, no bigger than a piece of thread, swam alongside an ocean liner bound for Scotland and ate bowl after bowl of tossed oatmeal. He had never tasted anything as wonderful as oatmeal in his whole life. A. W. Flaherty and Scott Magoon unravel the Loch Ness legend in this whimsical picture book for the picky (and not-so-picky) eater in all of us.

Ishbel and Kenneth need to spare their family from going hungry, so when they recollect the old neighborhood story about fortune under Urquhart Castle, they set off crosswise over Loch Ness in a paddling pontoon.

The definitive account of a Lake Champlain legend. "The lake surface was glass. My girlfriend and I were fishing from our anchored rowboat in about fifteen feet of water, facing the New York shore. 'Ron, what's that?' I turned. About thirty feet away I saw three dark humps ... protruding about two feet above the surface. The humps were perhaps two or three feet apart. They didn't move. We didn't either. We watched in disbelief for about ten seconds. The humps slowly sank into the water. There was no wake, no telltale sign of movement. Unexplained. Eerie. Unsettling." — from the Foreword by Ronald S. Kermani
Scotland may have Nessie, the Loch Ness Monster, but we have Champ, the legendary serpent-like monster of Lake Champlain. The first recorded sighting of Champ, in 1609, has been attributed to the lake's

namesake, French explorer and cartographer Samuel de Champlain. This is pure myth, but there have been hundreds of sightings since then. Robert E. Bartholomew embarks on his own search, both of the lake firsthand and through period sources and archives—many never before published. Although he finds the trail obscured by sloppy journalism, local leaders motivated by tourism income, and bickering monster hunters, he weighs the evidence to craft a rich, colorful history of Champ. From the nineteenth century, when Champ was a household name, to 1977, when he appeared in Sandra Mansi's controversial photograph, Bartholomew covers it all. Real or imaginary, Champ and his story will fascinate believers and skeptics alike.

Its a big, long necked monster that lives in the waters of Loch Ness. Stories of the Loch Ness Monster are told all around the world. Is it possible the legends are true?
