Love at Second Sight was a book I'd never heard of until I went to an Simon & Schuster event back in July, and luckily enough, I managed to snag a copy. This is my first book by author Cathy Hopkins and I must say, it definitely won't be my last. The story follows the life of teenager Jo, who so far has been quite unlucky in love.

Love at Second Sight (1916) is a novel by Ada Levenson. Having established herself as a journalist and short story writer, Levenson published her debut novel in 1907 to moderate acclaim. Entertaining and effortlessly witty, Levenson's prose paints a stunning portrait of the Edwardian era, a time when hope and relative peace proved prosperous for many. Often compared to her close friend Oscar Wilde, Levenson, a pioneering Jewish woman, remains a unique and refreshing voice in English literature. Love at Second Sight is the third installment in her Little Ottleys trilogy, a series of novels exploring the romantic lives of a hilariously diverse group of friends. Edith and Bruce Ottley seem to have it all—a charming flat, a healthy child, and a group of entertaining friends. Although they are far from perfect—Bruce can be jealous and quite the hypochondriac at times—their marriage remains strong and their home remains a place of refuge to their frequently lovelorn comrades. During the First World War, the Ottleys play host to the mysterious Madame Frabelle, who exercises a strange power over their home. When an old flame of Edith's unexpectedly returns from the war with a serious injury, she finds herself less and less willing to put up with Bruce's tiresome eccentricities. Edith and Bruce do their best to make themselves hospitable while defending their home against the hostilities of love, but the hearts and minds of their eclectic guests prove difficult to assuage. Love at Second Sight is a humorous tale of romance and desire from Ada Levenson, an underappreciated novelist of the Edwardian era. With a beautifully designed cover and professionally typeset manuscript, this edition of Ada Levenson's Love at Second Sight is a classic work of British literature reimagined for modern readers.

Unlucky in love Jo is dragged along to see a clairvoyant by her two coupled-up best friends, and is told that there's only one boy for her. The trouble is, the last time she saw him was in a past life, when she worked as a governess to his younger brother. The clairvoyant tells her that as she is back in this life, so is he, and she must find him if she is ever to know true happiness and love. Jo doesn't believe a word of it - but then a series of events begin to change her mind. Could her one true love reallybe out there? In her quest to find the One, she visits psychics and cemeteries - but will she even be able to recognize her soul-mate when she finds him? Or is she destined to continue looking for love for all of time?

Her career has enabled her to provide a comfortable living for her brother, sister and elderly aunt. Disaster looms, however. Now her life is in danger because she has viewed the unique aura of a killer fleeing the scene of his crime. Edith started up from her restful corner on the blue sofa by the fire, where she had been thinking about her guest, and rushed to the door. "Archie - chiel! Come here directly! What's that noise?" A boy of ten came calmly into the room. "It wasn't me that made the noise," he said, "it was Madame Frabelle." His mother looked at him. He was a handsome, fair boy with clear grey eyes that looked you straight in the face without telling you anything at all, long eyelashes that softened, but gave a sly humour to his glance, a round face, a very large forehead, and smooth straw-coloured hair. Already at this early age he had the expressionless reserve of the public school where he was to be sent, with something of the suave superiority of the university for which he was intended. Edith thought he inherited both of these traits from her.

Then she happens upon the perfect boy in the airport's cramped waiting area. His name is Oliver, he's British, and he's sitting in her row.... The #1 New York Times bestseller and National Book Award Finalist from the bestselling author of Everything, Everything will have you falling in love with Natasha and Daniel as they fall in love with each other. Natasha: I'm a girl who believes in science and facts. Not fate. Not destiny. Or dreams that will never come true. I'm definitely not the kind of girl who meets a cute boy on a crowded New York City street and falls in love with him. Not when my family is twelve hours away from being deported to Jamaica. Falling in love with him won't be my story. Daniel: I've always been the good son, the good student, living up to my parents' high expectations. Never the poet. Or the dreamer. But when I see her, I forget about all that. Something about Natasha makes me think that fate has something much more extraordinary in store—for both of us. The Universe: Every moment in our lives has brought us to this single moment. A million futures lie before us. Which one will come true? \*\*\* "Beautifully crafted."—People Magazine "A book that is very much about the many factors that affect falling in love, as much as it is about the very act itself. . . . fans of Yoon's first novel, Everything Everything, will find much to love—if not, more—in what is easily an even stronger follow up." —Entertainment Weekly "Transcends the limits of YA as a human story about falling in love and seeking out our futures." —POPSUGAR.com
