Medical Genetics: Pearls of Wisdom is a review manual that will help physicians improve their knowledge base in medical genetics and aid in preparation for national boards, recertification exams and rotation reviews. This book provides a review of Medical Genetics Principles in a rapid-fire question and answer format, offering students immediate gratification with a correct answer.

The unique format of this book differs from all other review and test preparation texts. The primary intent of the book is to serve as a study aid to improve performance on paramedic certification and refresher examinations. With this goal in mind, the text is written in rapid-fire, question/answer format. The student receives immediate gratification with a correct answer. Misleading or confusing multiple-choice 'foils' are not provided, thereby eliminating the risk of assimilating erroneous information that made an impression. Questions themselves often contain a pearl reinforced in association with the question/answer. Additional hooks are often attached to the answer in various forms, including mnemonics, evoked visual imagery, repetition and humour. Additional information not requested in the question may be included in the answer.

General Physics: Pearls of Wisdom is a review manual that provides exam review for medical students preparing for MCAT, VCAT, DCAT, AP Physics, and other exams. This study aid's rapid-fire question and answer format provides students with the immediate gratification of a correct answer. Questions also contain pearls of information intended to reinforce the answer.

EMT-Intermediate: Pearls of Wisdom is designed for those preparing for: State and national certifications Refresher exams

The primary intent of this book is to serve as a study aid to improve performance on EMT-Basic certification and refresher examinations. With this goal in mind, the text is written in rapid-fire, question/answer format. The student receives immediate gratification with a correct answer. Misleading or confusing multiple-choice 'foils' are not provided, thereby eliminating the risk of assimilating erroneous information which made an impression. Another advantage of this format is that the student either knows or does not know the answer to a given question. This results in active learning, rather than the passive learning of studying multiple choice questions.
