Unified Theory (UT) replaces Relativity, Quantum, Quark-lepton, Higgs, Supersymmetry, Electroweak, String & Big Bang theories. Light-wave propagates in all-composing, all-pervading sharmon medium as a kinetic gas. Sharmon comprises +ve positrino & -ve negatrino. UT has two elements (positrino, negatrino), two charges (mass, electric) & two forces (gravitational, electromagnetic). Mainstream has over 200 particles but none is \hat{e}^{\sim} element \hat{e}^{\sim} ™. Cosmino mass is innate, Higgs nonexistent. UT explains bending of light due to gravity, constancy & invariance to source-observer motion of light velocity c , variability of c invalidating Relativity, also wave-quantum unity of light. UT rejects 'length contraction', 'time dilation', uncertainty principle. No fermion or neutron is neutral. In UT \hat{e}^{\sim} ™s Non-expanding Universe redshift is caused by non-Doppler depletion of photon energy. This book will revise textbooks of Physics, Cosmology at all levels and may be translated into other languages.

Contains large number of Solved Examples and Practice Questions. Answers, Hints and Solutions have been provided to boost up the morale and increase the confidence level. Self Assessment Sheets have been given at the end of each chapter to help the students to assess and evaluate their understanding of the concepts.

Drawing heavily on the writings of professor D.S. kothari and matatma gandhi, this book analyses the concepts of truth in science and religion.
