Maternal Child Health The Columbia County Department of Health offers programs and services to assist families during pregnancy, after the baby's birth, and during the childhood years. Our goal is to provide education, assessments, and health care to help promote the healthiest possible start for your child's life.

**Columbia County Public Health | Nursing and Clinical Services**

For too long perinatal care focused on nine months of pregnancy and the delivery of a healthy infant at 40 weeks. Then we underwent a paradigm shift. We realized that the care that we offer in first 100 days after a baby is born is just as important as the care we provide during pregnancy. T he 4th Trimester was born!

**National Perinatal Association - 2020 Conference**

Written by the foremost experts in maternity and pediatric nursing, Maternal Child Nursing Care, 5th Edition offers the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX® examination. This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that you should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions. NEW! New chapter on pediatric cancer gives you the most up-to-date information on the latest topics. EXPANDED! Additional information on sexuality in the maternity section. EXPANDED! More content on spirituality in the family, culture, and spiritual chapters. EXPANDED and UPDATED! New content about LGBTQ+ included in the Transition to Parenthood chapter. NEW! Information on victims of sexual abuse as parents and human trafficking helps prepare you to handle these delicate issues. NEW and UPDATED! Case studies emphasize interprofessional care, demonstrating how nursing must collaborate with other health care disciplines to provide the most comprehensive care possible to women and children. UPDATED! Nursing Care Plans now incorporate case studies to personalize interventions and promote critical thinking.

Ideal for accelerated maternity and pediatrics courses, Maternal-Child Nursing, 4th Edition is filled with user-friendly features to help you quickly master essential concepts and skills. It offers completely updated content that's easy to read and understand. Plus, active learning tools give you the chance to practice applying your knowledge and make learning fun! Critical Thinking Exercises allow you to apply your knowledge to realistic clinical situations. Nursing care plans assist you with applying the nursing process to plan individualized care for the most common maternity and pediatric conditions. Critical to Remember boxes summarize and highlight essential, need-to-know information. Communication Cues provide practical tips for effective verbal and nonverbal communication with patients and families. Clinical Reference sections in pediatric chapters present information relevant to each body system, including anatomy and physiology, differences in the pediatric patient, and related laboratory and diagnostic tests. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy.

"For courses in maternal and child nursing care in any nursing program" Help students think like nurses with maternal-newborn and pediatric clients As nursing courses are shortened and clinical experiences become more limited, time is increasingly precious to both students and faculty. Designed to support faster, more efficient learning in condensed courses, " Maternal & Child Nursing Care "presents key content about maternal-newborn nursing, women's health, and pediatric nursing topics in an accurate, readable way. Throughout this family-focused text, special attention is paid to health promotion, home/community care, patient and family education, clinical reasoning, evidence-based practice, and cultural competence. Engaging features help readers learn and retain essential concepts in a short period of time. The straightforward approach allows students to focus on what is most important developing the essential skills and abilities to practice nursing in fast-changing healthcare environments. Also available with MyNursingLab(r) MyNursingLab is an online homework, tutorial, and assessment program designed to engage students in the Maternal/Newborn Nursing course and improve results. Its guided learning path is proven to help students think like a nurse as they move beyond memorization to true understanding through application. NOTE: You are purchasing a standalone product.
