Following on from the merger between AMG and DaimlerChrysler in 1999, things really began to happen for AMG Mercedes-Benz enthusiasts. The special touch of the AMG engineers was being seen on every model in the entire vast Mercedes-Benz model range, from the prosaic C-Class through to the S-Class and the SLK sports cars, as well as the ML and G-Class off-roader wagons. Not to be left out was the exotic Mercedes-Benz SLR McLaren with its supercharged 5.5 litre quad-cam V8 engine that was fettled by the AMG people. Included are road

Enzyme Technology is one the most promising disciplines in modern biotechnology. In this book, the applications of a wide variety of enzymes are highlighted. Current studies in enzyme technology are focused towards the discovery of novel enzymes (termed "bio-discovery" or "bio-prospecting") and the identification and elucidation of novel pathways of these novel enzymes with emphasis on their industrial relevance. With the development of molecular techniques and

other bioinformatics tools, the time to integrate this subject with other fields in the life sciences has arrived. A rapid expansion of the knowledge base in the field of enzyme biotechnology has occurred over the past few years. Much of this expansion has been driven by the bio-discovery of many new enzymes from a wide range of environments, some extreme in nature, followed by subsequent protein (enzyme) engineering. These enzymes have found a wide range of applications, ranging from bioremediation, bio-monitoring, biosensor development, bioconversion

to biofuels and other biotechnologically important value-added products. Hydrolases constitute a major component of the global annual revenue generated by industrial enzymes and the emphasis has therefore been placed on these enzymes and their applications. With the immense interest of researchers active in this area, this book will serve to provide information on current aspects in this field of study. In the current edition, the contributions of many diversified topics towards establishing new directions of research in the area of

shares the stories of Alberto Magelli, a small textile entrepreneur; Livia Firth, a prominent advocate for sustainability; Elisa Martelli, a young Sangiovese winemaker; Enrico Giovannini, a leading economist and statistician; Rino Pratesi, a proud butcher from the heart of Tuscany; and more. From the overworked to the unemployed, we're all grappling with difficult questions about our current disorienting world: Will we ever feel healthy again, and what will it take to regain "normality?" What does progress mean today? Have science and technology let
