""The rhythm and flow of words perfectly match the art while advising readers to choose love and use their voices in a powerful song." --School Library Journal (starred review) From rising country star Jimmie Allen comes a lyrical celebration of the many types of voices that can effect change. From voices tall as a tree, to voices small as a bee, all it takes is confidence and a belief in the goodness of others to change the world. Coming at a time when issues of social justice are at the forefront of our society, this is the perfect book to teach children in and out of the classroom that they're not too young to express what they believe in and that all voices are valuable. The perfect companion for little readers going back to school!

How can you make your voice heard when you're not old enough to vote? How can you set a good example when someone is picking on you? What can you do to make a difference in your community and in the world? You make a difference every time you help others or set a good example. That's what good citizenship is all about! The questions and answers in this book will show you how to be a great citizen. Get ready to make your voice count!

The Testimony of Children A moving picture book for older children and families that introduces a difficult topic, amplifying the voices and experiences of immigrant children detained at the border between Mexico and the US. The children's actual words (from publicly available court documents) are assembled to tell one heartbreaking story, in both English and Spanish (back to back). Each spread is illustrated in striking full-color by a different Latinx artist. A portion of sales will be donated to human rights organizations that work with children on the border.

This book is a collection of selected writings by Dr. Sidney Rosen that aim to demystify the work of the leading clinical psychiatrist, Dr. Milton Erickson, and illustrate Erickson's unconventional and life-changing hypnotic techniques and strategic therapy. An essential reading for those who seek to learn essential elements of psychotherapy, this collection elucidates fundamental aspects of Erickson's approaches and outlines factors effective in all forms of psychotherapy. It contains core teachings of many central elements in psychotherapy and stresses the importance of techniques such as therapeutic trance and hypnosis. As a student and close friend of Dr. Erickson, Dr. Rosen shares his own personal insights about Erickson's teaching methods in a direct and straightforward manner that allows readers easy access to Ericksonian philosophy and techniques. Many therapists, both psychoanalytic and others, will find both Rosen's and Erickson's approaches compatible with their own and far removed from their preconceptions about hypnosis. Providing guidelines for providers of individual and group therapy, this book is an excellent guide to Ericksonian hypnotherapy.

A NEW YORK TIMES BESTSELLER "Valerie has been one of Barack and my closest confidantes for decades... the world would feel a lot better if there were more people like Valerie blazing the trail for the rest of us."--Michelle Obama "The ultimate Obama insider" (The New York Times) shares her journey at a pivotal moment in American history When Valerie Jarrett interviewed a promising young lawyer named Michelle Robinson in July 1991 for a job in Chicago city government, neither knew where that meeting might take them. Jarrett would go on to become a trusted friend and advisor to Michelle and Barack Obama -- and one of the most visible, influential African-American women of the twenty-first century. Now, in her forthright and optimistic memoir, Jarrett shares her experience as a mother, daughter, and woman who's experienced the magic that happens once we cast aside any unrealistic expectations of a perfect life or a perfect outcome. In Finding My Voice, she offers a galvanizing testament to the power in staying open to a change in course and an embrace of the uncomfortable. Only then, she argues, can we move forward together and truly learn to value--and listen to--our own voices.

As she tries to enjoy her senior year and choose which college she will attend, Korean American Ellen Sung must deal with the prejudice of some of her classmates and pressure from her parents to get good grades.

The NPR talk show host discusses her life, her career, and her battle with spasmodic dysphonia.

Case histories are presented to illustrate the use of hypnosis in psychiatric therapy by Dr. Milton H. Erickson
