Headache is the number one complaint that causes a patient to see a neurologist. Because headaches constitute such a large part of many clinicians practices, the United Council for Neurologic Subspecialties created an annually-administered headache subspecialty exam in 2006. *Headache Medicine: Questions and Answers* is the only question-and-answer book for the new headache subspecialty exam, with more than 500 questions, answers, explanations, and references to help readers self-assess their knowledge and to prepare for the subspecialty exam, as well as the neurology Board examination. *Headache Medicine: Questions and Answers* covers everything from the basics of epidemiology and co-morbidity, to must-know clinical neurology, to diagnosis and treatment. Board-type review questions are used throughout, each with an answer, a detailed explanation, and one or more references to help direct more in-depth review as desired. Divided into six key sections for targeted topic review, this is the most comprehensive and effective way to prepare for exams. Key features of *Headache Medicine* include: Board-type question format used to provide familiarity with question types Answers and explanations, which detail not only why the answer is correct, but also why the distracters are wrong. A series of in-depth, multi-question patient management problems that provide a realistic clinical learning experience References with each question for further investigation as desired
