next 50 years. He confronts the controversies surrounding Nostradamus and the seer's dating system, and shows that the prophecies retain their potency at the dawning of a new era. For this new edition, Lemesurier includes many verses dealing specifically with the threat of invasion. Predictions include: The rise of a massive military power destined to move out of Asia via the Middle East into Europe; The apathy and incompetence of European leaders, with disastrous consequences for their countries; The resulting occupation and devastation of many parts of Europe, including Greece, Italy, Spain and France; Repression of Christianity and persecution of the Church; Severe flooding in various parts of the world, including Britain; A successful counter attack against the Asiatic invaders starting from British shores

Nostradamus und seine Prophezeiungen haben die Menschen bereits seit Jahrhunderten fasziniert. Zahlreiche seiner verschlüsselten Voraussagen haben sich bewahrheitet und sind daher auch heute noch für uns interessant. Dieses Buch bietet dem Leser einen Einblick in die rätselhaften, prophetischen Gedichte des Astrologen und Hofarztes. Erklärungen und Interpretationsmöglichkeiten von Nostradamus' Werk erlauben dem Leser zudem, eigene Rückschlüsse zu ziehen.

Mexcio challenges U.S., the new great powers Turkey, Poland and Japan. The Next 100 Years is a fascinating, eye-opening and often shocking look at what lies ahead for the U.S. and the world from one of our most incisive futurists. In his provocative book, George Friedman turns his eye on the future—offering a lucid, highly readable forecast of the changes we can expect around the world during the twenty-first century. He explains where and why future wars will erupt (and how they will be fought), which nations will gain and lose economic and political power, and how new technologies and cultural trends will alter the way we live in the new century. The Next 100 Years draws on a fascinating exploration of history and geopolitical patterns dating back hundreds of years. Friedman shows that we are now, for the first time in half a millennium, at the dawn of a new era—with changes in store, including:

- The U.S.-Jihadist war will conclude—replaced by a second full-blown cold war with Russia.
- China will undergo a major extended internal crisis, and Mexico will emerge as an important world power.
- A new global war will unfold toward the middle of the century between the United States and an unexpected coalition from Eastern Europe, Eurasia, and the Far East; but armies will be much smaller and wars will be less deadly.
- Technology will focus on space—both for major military uses and for a dramatic new energy resource that will have radical environmental

implications. • The United States will experience a Golden Age in the second half of the century. Written with the keen insight and thoughtful analysis that has made George Friedman a renowned expert in geopolitics and forecasting, *The Next 100 Years* presents a fascinating picture of what lies ahead.

Das Buch beschäftigt sich mit Prophezeiungen zum Schicksal Europas im 21. Jahrhundert.

Is there light at the end of the tunnel? We've heard from the prophets of doom and gloom--but prophecy is not set in stone.

One of the most enigmatic figures in history, Nostradamus - apothecary, astrologer and soothsayer - is a continual source of fascination. Indeed, his predictions are so much the stock-in-trade of the wildest merchants of imminent Doom that one could be forgiven for forgetting that Michel de Nostredame, 1503-1566, was a figure firmly rooted in the society of the French Renaissance. In this bold new account of the life and work of Nostradamus, Denis Crouzet shows that any attempt to interpret his Prophecies at face value is misguided. Nostradamus was not trying to predict the future. He saw himself, rather, as 'prophesying', i.e. bringing the Word of God to humankind. Like Rabelais, for whom laughter was a therapy to help one cope with the misery of the times, Nostradamus thought

of himself as a physician of the soul as much as of the body. His unveiling of the menacing and horrendous events which await us in the future was a way of frightening his readers into the realisation that inner hatred was truly the greatest peril of all, to which the sole remedy was to live in the love and peace of Christ. This inspired interpretation penetrates the imaginative world of Nostradamus, a man whose life is as mysterious as his writings. It shows him in a completely new dimension, securing for him a significant place among the major thinkers of the Renaissance.

The Great and Holy War offers the first look at how religion created and prolonged the First World War, and the lasting impact it had on Christianity and world religions more extensively in the century that followed. The war was fought by the world's leading Christian nations, who presented the conflict as a holy war. A steady stream of patriotic and militaristic rhetoric was served to an unprecedented audience, using language that spoke of holy war and crusade, of apocalypse and Armageddon. But this rhetoric was not mere state propaganda. Philip Jenkins reveals how the widespread belief in angels, apparitions, and the supernatural, was a driving force throughout the war and shaped all three of the Abrahamic religions - Christianity, Judaism, and Islam - paving the way for modern views of religion and

violence. The disappointed hopes and moral compromises that followed the war also shaped the political climate of the rest of the century, giving rise to such phenomena as Nazism, totalitarianism, and communism. Connecting remarkable incidents and characters - from Karl Barth to Carl Jung, the Christmas Truce to the Armenian Genocide - Jenkins creates a powerful and persuasive narrative that brings together global politics, history, and spiritual crisis. We cannot understand our present religious, political, and cultural climate without understanding the dramatic changes initiated by the First World War. The war created the world's religious map as we know it today.
