Mathematical Literacy  
11 Teachers  
Grade 11 has been  
especially developed  
by an experienced  
author team  
according to the  
Curriculum and  
Assessment Policy  
Statement (CAPS).  
This new and easy-to-  
use course helps  
learners to master

# Get Free Platinum

essential content and skills in Mathematical Literacy. The comprehensive

Learner's Book

includes: \* thorough coverage of the basic skills topics to lay a sound foundation for the development of knowledge, skills and concepts in

Mathematical Literacy

\* margin notes to

# Get Free Platinum

assist learners with  
new concepts -  
especially Link boxes,  
that refer learners to  
the basic skills topics  
covered in Term 1,  
Unit 1-16 \* ample  
examples with a  
strong visual input to  
connect Mathematical  
Literacy to everyday  
life.

This book

*Page 37/50*

# Get Free Platinum

disseminates original research on learning in and from practice in pre-service teacher education. Authors such as Lederman and Lederman describe the student teaching practicum (or work-integrated learning [WIL]), which is an essential component of pre-service teacher

# Get Free Platinum

education, as the  
'elephant in the  
room'. These authors  
note that 'the  
capstone experience  
in any teacher  
education programme  
is the student  
teaching practicum...  
[a]fter all, this is  
where the rubber hits  
the road'. However,  
many teacher  
educators will agree

# Get Free Platinum

Mathematical  
Literacy Grade  
11 Teachers  
that this WIL  
component is  
sometimes very  
insufficient in

assisting the student  
teacher to develop  
their own footing and  
voice as a teacher.

This is the 'gap' that  
this research book  
addresses. Most of  
the chapters in the  
book report empirical  
data, with the

# Get Free Platinum

exception of two  
chapters that can be  
categorized as  
systematic reviews.

WIL is addressed  
from various angles in  
the chapters. Chapter  
6 focuses on research  
related to what makes  
Finnish teacher  
education so  
effective, and in  
Chapter 4  
researchers of the

# Get Free Platinum

University of  
Johannesburg  
disseminate their  
findings on

establishing a  
teaching school  
(based on Finnish  
insights) in  
Johannesburg.

Chapter 3 highlights  
the challenges faced  
in open-and distance  
learning teacher  
education contexts.

# Get Free Platinum

Several of the chapters disseminate research findings on alternative interventions to classic WIL, namely, where “safe spaces” or laboratories are created for student teachers to learn and grow professionally. These could either be simulations, such as software programmes

# Get Free Platinum

and avatars in the intervention described in Chapter 2; student excursions, as the findings in chapters 5, 7 and 10 portray; or alternative approaches to WIL (e.g. Chapters 11 and 12). The book is devoted to scholarship in the field of pre-service teacher education. The target

# Get Free Platinum

audience is scholars working in the fields of pre-service teacher education, work-integrated learning, and self-directed learning. The book makes a unique contribution in terms of firstly its extensive use of Cultural-Historical Activity Theory as a research lens, and secondly in

# Get Free Platinum

drawing on various theoretical frameworks. Both quantitative and qualitative research informed the findings of the book.
