After Lora Brody and Millie Apter discovered the joys of baking bread in electric bread machines, they decided to create and swap new recipes. Lora would rave about a newly developed recipe and send it to Millie, who would have disastrous results with it. What was going on? This mother-daughter team soon learned that the same recipe did not work in all machines, so it was back to the kitchen. After months of testing, they found that the amounts of ingredients and the order in which they are put into the machine affect the taste, crust, and the crumb of the bread. Thanks to them, now you too can discover the best ways to make bakery fresh bread at the touch of a button! Bread Machine Baking: Perfect Every Time has two features not found in other bread machine books: Each recipe is geared to a specific electric bread machine. All of the 75 recipes have been individually developed for and tested in every machine on the market. The innovative sweet and savory bread recipes, ranging from Lemon Mint Bread to Olive Onion Bread, and Granola Cranberry Bread to Chocolate Pecan Biscotti, were developed especially for this book.

Adult Coloring Book with Fun, Easy, and Relaxing Coloring Pages - Featuring 45 Beautiful Floral Designs for Stress Relief, Spring Gardening Scenes, & Floral Patterns 90 Pages Practical size: 8.5x11 inches Beautiful designed sturdy matte soft-cover with funny saying Awesome Flower Coloring to record your coloring drawing. This Flowers Coloring Book makes a great birthday gift idea for fathers day, birthday or Christmas present for any Birds Lover.

Presents the basic principles of biointensive gardening with tips on what to grow, preparing growing beds, and planning and planting crops

"This book is about the people I met as I crisscrossed Australia by train and plane and L-plated car: the undefeated dreamers and wild-hearted romantics, the obsessed hobbyists and beautiful failures. It is about heroes and legends, illusions, delusions and hope, and one or two men with shit for brains who ought to be locked up." As anyone who's ever read Mark Dapin's column and features in Good Weekend knows, he's an immensely funny, acute and vivid observer of Australian life. In Strange Country, he takes us on a journey through a very different Australia - a country that's eccentric, puzzling, big-hearted, small-minded, nostalgic and sometimes just plain mad. From the last travelling boxing tent to feral urban sewer rats to Vietnam Veteran bikies and the annual Parkes Elvis Festival, his writing illuminates the stranger side of Australian life in a travel book like no other.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

When Beatles tour guide Barry Seddon finds a letter written by John Lennon he unearths a clue to solving the greatest mystery in pop music - the whereabouts of Lennon's first musical instrument which has been missing for over 50 years. But Barry's loose tongue alerts Texan dealer Travis Lawson to the priceless relic. In an attempt to get his hands on the letter, Lawson persuades his beautiful wife Cheryl to befriend the hapless tour guide and win his affections. The race for the Holy Grail of pop memorabilia is on . . .

This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

Portrays the troubled life of Maddy Dow, the eldest child of an outwardly respectable family and the primary victim of her abusive father's physical savagery
