Ravi is plain unlucky. Be it grades, ever-disappearing pocket money or desperate attempts to sustain his relationship, he has been smirched by ill fate all in all. Just when he is about to give up on life, he stumbles across the century-old diary of his uncle, Cpt. Jeevan Kumar. The diary that contains the secret to his Uncle's extravagant and fairytale-like life, the diary that contains the Law of Luck. What is luck? Why are some people luckier? And can luck be changed? Welcome onboard L.O.L., a rollercoaster ride through adventures spanning two centuries on the common rails of luck. A funny coming-of-age novel, L.O.L sprinkles in a healthy dose of insightful thinking that is sure to motivate readers as much as it engages and delights them.

This book comprises the select proceedings of the International Conference on Emerging Global Trends in Engineering and Technology (EGTET 2020), held in Guwahati, India. The chapters in this book focus on the latest cleaner, greener, and efficient technologies being developed for the implementation of smart cities across the world. The broader topical sections include Smart Buildings, Infrastructures and Disaster Management; Smart Governance; Technologies for Smart Cities, and Wireless Connectivity for Smart Cities. This book will cater to students, researchers, industry professionals, and policy making bodies interested and involved in the planning and implementation of smart city projects.

The Book has been thoroughly revised, keeping in mind the rapid technological advances in this mammoth industry and also the feedback received from various quarters. Relevant extracts from current SOLAS, IACS, Lloyd's Register, DNV and ABS Rules, have been included with permission. However, these must be used only for academic purposes. Relevant current documents onboard ships must be referred to, for the purpose of complying with Classification Societies' and other Statutory Requirements.

For the first time this classic is available in a richly illustrated edition. It is a must read for India freaks and serious architects everywhere, the Second Edition of India's only architectural book ever to rank in the Top Ten Best Selling Non-fiction Books, entitled Letters to a Young Architect, is now appearing with one hundred and thirty-two colour, and black and white, illustrations. An all inclusive Index makes it easy for readers to locate people, places and ideas they wish to study. The author, Christopher Charles Benninger, is respected as one of India's leading architectural theorists and practitioners. He has won the Great Master's Award, the Architect of the Decade Award, the Indian Institute of Architects Award, the American Institute of Architects/Architectural Record/Business Week Award and many more. This book was awarded the Best Architectural Book of 2012 by Archidesign. The Chinese translation was released in January 2013 and the Gujarati version in November 2013. The book's narrative is a poetic and sensitive memoir of a stranger's adventures in Asia and his transformation in India. The book debates concerns about architectural theory, design and contemporary urban planning. Through the medium of written discourses and talks presented over the past decade, a lucid collection of essays emerge that testify the commonality of mankind's condition. This is a collection of autobiographical narratives and ideas, reflecting a journey of the spirit from America and Europe to India, and the philosophical considerations that matured from these experiences. His travels are not only stories of the dusty roads he traveled on, but also of the passions and emotions of those he met along the way. Letters to a Young Architect reflects on the role and direction of architecture in framing a new man and a new society in the new millennium. Benninger notes his encounters with gurus like Kevin Lynch, Charles and Ray Eames, Jose Luis Sert, Walter Gropius, Arnold Toynbee and Buckminster Fuller, and the manner in which their personal passion for humanity shaped the lives of others. Benninger is a strong believer in tradition, in gurus and in students and in a lineage of values, ideals, principles and of practices which have been matured from generation to generation. He is concerned with the education of architects; the nature of architecture itself; and the role of urbanism and planning in the creation of a new society. The role of Indian masters like Balkrishna Doshi, who guided him in his search, is a touching tribute to the Indian "Guru-Shishya" tradition. Christopher Benninger prepared the Capital Plan for Thimphu, Bhutan; for six cities in Sri Lanka and many towns and cities across Bhutan, India, and Sri Lanka. His well known architectural works include the Suzlon One Earth, the United World College of India, the Samundra Institute of Maritime Studies, the Indian Institute of Management at Kolkata, the Centre for Development Studies and Activities in Pune and the Kirloskar Institute of Advanced management Studies in Pune. He founded the School of Planning at CEPT University in Ahmedabad, India after a stint teaching at the Graduate School of Design at Harvard University where he studied architecture.

IMO sales no.: T704E.

American born and raised, Christopher Benninger is one of India's most highly decorated architects. His career spans four decades in prominent roles: as an institution builder, professor, United Nations and World Bank consultant advising many governments, pioneering expert in social planning and low cost housing for the less privileged in Jamnagar, Chennai, Hyderabad, and several other cities, and master architect, designing many modern institutions nurturing development in India. His award winning projects include the Mahindra United World College of India, Samundra Institute of Maritime Studies, YMCA Camp Site at Nilshi, Suzlon One Earth, and his own studio residence "India House" in Pune. Graduating in architecture from Harvard University where he later taught, Benninger completed further studies in urban planning at MIT and settled in India in 1971, founding the School of Planning in Ahmedabad where he remains an active distinguished professor. His name appears alongside Geoffrey Bawa, Charles Correa, and Balkrishna Doshi as one of the few recipients of the Great Master Architect Award in India presented every three years.
