Written specifically for occupational therapy assistants, *The OTA's Guide to Writing SOAP Notes, Second Edition* is updated to include new features and information. This valuable text contains the step-by-step instruction needed to learn the documentation required for reimbursement in occupational therapy. With the current changes in healthcare, proper documentation of client care is essential to meeting legal and ethical standards for reimbursement of services. Written in an easy-to-read format, this new edition by Sherry Borcharding and Marie J. Morreale will continue to aid occupational therapy assistants in learning to write SOAP notes that will be reimbursable under Medicare Part B and managed care for different areas of clinical practice. New Features in the Second Edition:

- Incorporated throughout the text is the Occupational Therapy Practice Framework, along with updated AOTA documents
- More examples of pediatrics, hand therapy, and mental health
- Updated and additional worksheets
- Review of grammar/documentation mistakes
- Worksheets for deciphering physician orders, as well as expanded worksheets for medical abbreviations
- Updated information on billing codes, HIPAA, management of health information, medical records, and electronic documentation
- Expanded information on the OT process for the OTA to fully understand documentation and the OTA's role in all stages of treatment, including referral, evaluation, intervention plan, and discharge
- Documentation of physical agent modalities

With reorganized and shorter chapters, *The OTA's Guide to Writing SOAP Notes, Second Edition* is the essential text to providing instruction in writing SOAP notes specifically aimed at the OTA practitioner and student. This exceptional edition offers both the necessary instruction and multiple opportunities to practice, as skills are built on each other in a logical manner. Templates are provided for beginning students to use in formatting SOAP notes, and the task of documentation is broken down into small units to make learning

This hands-on textbook/workbook teaches readers how to document functional outcomes in a clear, logical progression. Extensive examples and exercises in each chapter highlight the essential points of functional outcomes documentation, designed to help improve client function and reduce disability as well as provide evidence of functional progress for insurance payment and reimbursement. Provides both theoretical foundations and a practical approach to functional outcomes documentation. Presents a top-down perspective on rehabilitation, based on the Nagi disablement model. Numerous examples and exercises in every chapter allow readers to put documentation skills into practice as they learn essential theoretical concepts. An overview of key legal issues related to physical therapy documentation is provided. Functional outcomes documentation in a variety of settings is covered, including acute care, rehabilitation, outpatient, home care, nursing homes, pediatrics, school settings, and group homes. Examples illustrate a range of impairments featuring different client groups that challenge students to consider real-life scenarios.
