Searching for Meaning in Gailana is the first part of a three part concept from John Francis. Set in an alternate world, the island of Gailana seems a considerable size, home to multiple nations. These nations have fairly clear identities, that unsurprisingly clash at times. Yet none of that really says what this is all about.

Searching for Meaning in Gailana by John H.T. Francis
Searching For Meaning in Gailana is Orwellian leaning toward satire in some places, then other times, it is a simple allegory that sometimes reads like a case study. In the end, it is an entertaining tale that could spark discussion and thought.

Gailana is the central island of the world; Aurganots, Reminos, Hindarassis, Pelanese, and Free People, different societies with different customs and values, live in it. Gailana is old, with a history rich in events and civilisations. The mother island has undergone important changes in recent decades, including a devastating war from which the Aurganots emerged victorious. Following this war, Aurganot has become a country of wealth, technology, and power, dominating all others. In this fictional first part of The Story in Three Parts, John H.T. Francis tells the story of Levon, a

young and sincere soul looking for meaning in a changing world. This short novel will take you on a journey through Gailana, shows you its diversity, and brings you close to many of its human aspects. Events will develop fast on the island, and Levon is about to be in the midst of them.

Human societies have always been preoccupied with three main searches: the Search for Technology, the Search for Truth, and the Search for Meaning. Social structures; currents of action and thought; philosophies; and history, all are driven and honed by t

After 9/11, madrasas have been linked to international terrorism. They are suspected to foster anti-western, traditionalist or even fundamentalist views and to train al-Qaeda fighters. This has led to misconceptions on madrasa-education in general and its role in South Asia in particular.

Government policies to modernize and "pacify" madrasas have been precipitous and mostly inadequate. This book discusses the educational system of madrasas in South Asia. It gives a contextual account of different facets of madrasa education from historical, anthropological, theological, political and religious studies perspectives. Some contributions offer recommendations on possible "and necessary" reforms of religious educational institutions. It also explores the roots of militancy and sectarianism in Pakistan, as well as its global context. Overall, the book tries to correct misperceptions on the role of madrasas, by providing a more balanced discussion, which denies neither the shortcomings of religious educational institutions in South Asia nor their important contributions to mass education.

From American Book Award-winning author Ana Castillo comes a suspenseful, moving novel about a sensuous, smart, and fiercely independent woman. Eking out a living as a teacher's aide in a small New Mexican border town, Tía Regina is also raising her teenage nephew, Gabo, a hardworking boy who has entered the country illegally and aspires to the priesthood. When Gabo's father, Rafa, disappears while crossing over from Mexico, Regina fears the worst. After several days of waiting and with an ominous

phone call from a woman who may be connected to a smuggling ring, Regina and Gabo resolve to find Rafa. Help arrives in the form of Miguel, an amorous, recently divorced history teacher; Miguel's gregarious abuelo Milton; a couple of Gabo's gangbanger classmates; and a priest of wayward faith. Though their journey is rife with challenges and danger, it will serve as a remarkable testament to family bonds, cultural pride, and the human experience Praise for The Guardians NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE CHICAGO TRIBUNE "An always skilled storyteller, [Castillo] grounds her writing in . . . humor, love, suspense and heartache—that draw the reader in." In the end, Castillo's unmistakable voice—earthy, impassioned, weaving a "hybrid vocabulary for a hybrid people"—is the book's greatest revelation." "Time Out New York "A wonderful novel . . . Castillo's most important accomplishment in *The Guardians* is to give a unique literary voice to questions about what makes up a "family."
