Have You Thought About the Possibility to Have Your House Set Up Anywhere You Want and Then Move It? That's Truly Possible with The Shipping Container Homes and This Insightful Guide Will Teach How Exactly to Do It! Buying a property or a house in which to settle in and call home is an awesome thing to do. Of course, everything comes at a cost - you get the maintenance and repairs that impact your savings quickly, moving could be costly, it's a longer commitment, mortgage... The list goes on and on. But have you ever imagined escaping traditional housing by having a crib that it's Quick and relatively Easy to Build, it's Modular, and at the same time Durable, and Mobile...? Wait, what? Yes, you got it right. The Shipping Container Homes, no matter how all of it sounds, are an intriguing alternative to housing that is quite more cost-effective than the traditional apartments and houses are. And If You Are Still Wondering How This Is Even Possible, Then This Book Right Here Will Provide You with All the Details in Terms of How to Technically Put Everything Together from Scratch! After going into more detail about This Manual, you will: Reveal The Pros of Building a Shipping Container Home and envision the great possibilities that lie ahead (and inspire you to take the next step) Find Out the Specifics on Choosing the Container and ensure that you're picking the right one (all the types, price ranges, and conditions of containers listed here will aid your choice) Learn What Is Needed in The Planning and Site Preparation Phase and avoid being brought down by annoying formalities when building your new place (this part is going to save you a lot of drama, so do not miss on it) Discover How to Connect All the Services Out There and convert your container into a proper home (after having the electricity, plumbing, and heating set up, you will barely feel the difference from the standard apartment) Catch On Useful Tips and Tricks on Interior and Exterior Design that will help you fix your housing project in no time (and make yourself at home) And So Many Other Useful Insights! This might look like a lot to go through, but... Good things take time, but in the end, if you are serious about taking on such a project, you will be delighted by the final outcome. If you got hyped about this, don't hesitate - The Guide You Are About to Go Through Will Be the Perfect Teacher to Get Started and Prepare You for What's to Come! Eager To Learn More...? ... Order Your Copy and Start with Your First Project!

Does the idea of living inside a shipping container thrill and excite you? Or do you scoff at the notion? Shipping containers have taken off the ground in the last several years, but there are still naysayers who consider it a complete waste of time and money. Whatever your opinion may be, 'Shipping Container Homes: The Best Guide to Building a Shipping Container Home for Sustainable Living, Including Plans, Tips, Cool Ideas, and More!' is guaranteed to open your eyes to an excellent idea. In the current economy, most young people are confined to the options of rundown apartments or basement suites. But there is another option, and it's more possible than you think. Not only is building a shipping container home from scratch cheaper than most apartments, but there are also unseen benefits that go beyond just saving the cash in your wallet. Though there are many people against shipping container homes, there are just as many who tout it as the greatest thing to happen in modern architecture, without truly examining the nuances of the projects. This book is an in-depth, unbiased look at the facts of shipping container homes. Within the pages of this book, you will find a complete guide to the shipping container home. Have you always been interested in the idea but just didn't know where to start? Everything you need to know can be found in these chapters. All the information is gathered here in one convenient place, where any questions that might pop up along the way are answered in another chapter. No need to go searching on the Internet clicking link after link, opening a string of new tabs that tell you most of the same thing anyway.
